

A Brief Profile of Greenfield National College

Introduction

Greenfield National College (GNC) was established in 2007 with the aim to add a new dimension in the higher education of Nepal as an affiliated college of Tribhuvan University. Though the college cannot develop its own curriculum and academic programs, it has been working to transplant an approach to deal with the higher education in the graduating students. The approach is to relate the higher education closer to the lives of the people. Until or unless the skill and knowledge are applicable in daily lives, there is no use of such education.

That is why we make our students learning from the society and from the people more than they learn from the curriculum and theories. Besides regular formal classes, students are exposed to the renowned scholars, artists, writers, entrepreneurs etc. and are facilitated to know the secrets of success. Similarly, the college offers non- credit courses on various project –based programs.

GNC aims to become a center of higher education in all disciplines and to explore the knowledge for the advancement of the future society. It has been working to establish a strong foundation for the future organization. The vision, mission and goals as following have been deeply intertwined into each activity and the program of the college.

Vision

Greenfield National College (GNC) is committed to becoming one of the leading center of Higher Education in Nepal serving the intellectual, cultural, social, environmental and economic needs of the country. As a result, GNC will cause human development through its educational program, research initiatives and outreach efforts.

Mission

GNC is devoted to discovering, disseminating and applying knowledge for the advancement of the Nepali society in perspective of global changes. The GNC indentifies and attracts undergraduate and graduate students of high potential, especially those who have been historically under-represented because of limited financial resources. Through commitment to excellence in teaching and educational services, GNC prepares students for lifelong learning and for constructive participation in the community.

Goals

1. The college will promote continuous quality improvements in teaching, learning, scholarly research and creative initiatives.
2. The college hopes to achieve exemplary undergraduate education based on integrated core curriculum and technology aided teaching – learning process. In addition, the college will establish reputed Master's Degree programs which should enable the students to be leaders in their respective field and for future education leading to doctorate programs.
3. The college will develop technology infrastructure and information resources necessary to support the college's programs/ services and research.

Program

GNC has established bachelor degree programs in Management and Humanities and Social Science (BA I BSW) in the first phase and planning to establish complete programs in the bachelor degree. In the second phase, GNC will add some programs of master degree in management and social sciences. Research degree, (M. Phil) programs will be added in third phase of development.

Management, Humanities and Social Science, Education, Science and technology are the major areas of higher education in GNC. However, the new programs, applicable in the present market situation, developed by the university will be incorporated. Besides, the college has established an independent research and development wing to practice research and explore the knowledge in Nepali society.

Higher education at GNC

Higher education means a lot more than just getting a qualification. GNC offers students the chance to meet new people and take advantage of new opportunities. Unlike school, students are at university or college because they want to be learning more about a subject or job they are really into. They will have more control over how and when they study, though it's up to them to make the most of it. They will find higher education challenging-getting used to new ways of learning and thinking may take time- but they will have a lot of fun along the way. They will also have lots of opportunities to experience new things and meet new people.

Highlights

Excellent result in Tribhuvan University

TU topper in BA (JMC) - 2010

96.4% Result in BA 2010

98.6% Result in BBS 2011

College of national talents

Guardianship of reputed national and international scholars/ intellectuals

Higher education courses aided with self development programs

Students from diverse social, cultural and linguistic backgrounds

Dynamic, young and enthusiastic faculties

Faculty

GNC has the best team of faculty in Humanities & Social Science as well as in Management stream. The qualified and well experienced faculties are the driving force to enhance the academic capacity of the college. The faculties are categorized as regular faculty and guest scholars. Guest scholars visit the classes irregularly.

A. Guest Scholars

- Prof. Dr. Madhav Prasad Pokhrel
- Prof. Dr. Dev Raj Adhikari
- Prof. Dr. Prem Sharma
- Prof. Dr. Bidhyaman Shakya
- Prof. Dr Mahandra Prasad Shrestha
- Dr. Krishna Hari Baral
- Dr. Amar Raj Joshi
- Dr. Parasuram Kharel
- Prof. Dr. Lal Deusa Rai
- Dr. Shiva Rijal
- Mr. Indra Thapa

B. Regular Faculties

a. Management

- Mr. Shree Krishna Kharel
- Mr. Madan Pokhrel
- Raju Manandhar
- Hari Bahadur Basnet
- Bibhas Gautam

b. Finance

- Mr. Tolakant Adhakari
- Mr. Laxman Poudel
- Mr. Janak Subedi

c. Business Law

- Mr. Subash Sharma
- Mr. Suresh K. Guragain

d. Business Statistics

- Mr. Raju Bastakoti
- Mr. Arun Kumar Yadav

e. Account

- Mr. Arun Neupane
- Mr. Bikrant Koirala
- Mr. Gyanraj Gautam
- Mr. Prem Sapkota

f. Economics

- Mr. Homanath Gaire
- Mr. Krishna Sharma
- Mr. Yagya P. Neupane

g. English

- Mr. Chandra Bdr KC
- Mr. Laxman Ghimire
- Mr. Basanta Bhattarai
- Mr. Baldev Pokhrel
- Mr. Kulananda Adhikari
- Mr. Prakash Subedi

h. Nepali

- Mr. Hem Subedi
- Mr. Balkrishna Sharma

i. Journalism and Mass Communication

- Mr. Raju Silwal
- Mr. Purusottam Ghimire
- Mr. Krishna Pokhrel
- Mr. Saroj Dhakal

j. Sociology/ Anthropology

- Mr. Balram Acharya
- Mr. Dilli Ram Timilsina
- Mr. Govinda P.Bhandari
- Mr. Krishna Bhandari
- Mr. Hareram Tiwari

k. Counseling

- Mr. Bishnu Bahadur K.C
- Mr. Milan Thapa
- Ms. Apsara Bhattarai

l. Program Management

- Mr. Bijaya Gautam
- Mr.Dilaram Kharel
- Mr. Sagar Sapkota

m. Legal Advisor

- Mr. Kamal P. Pokhrel

n. Computer

- Er. Anup Subedi
- Mr. Krishna Acharya

o. Administration

- Ms. Deepa Thapa
- Mr. Dhurba Kharel
- Ms. Ambika Kharel
- Ms Usha Tamang
- Ms. Kalpana Adhikari
- Mr. Sangeeta Bhandari

Scholarship

1. "Greenfield diligent Student Scholarship" Awarded to students securing top position in the examination
2. "Greenfield Scholarship for National Talent" Awarded to students recognized as national talent in any field
3. "Greenfield Social Welfare Scholarship" Awarded to the students from socially and economically disadvantaged backgrounds

Students club

To promote the spirit of leadership, team work, event management, and to give a platform to the various talents of the student, the college has established four students' clubs which organize events in their respective fields round the year.

Research and Development Program

With a conviction that expansion of knowledge cannot take place without proper training and facilities in research, GNC has established an independent research wing. The wing provides research opportunity not only to the students and professor of the college but also to the independent researcher

Beyond The Boundary

Rather than focusing the students' attention on class room activity and text books, we aim at giving them a broader outlook on their subject matter and life as a whole through interactive seminar , talks, conference and field study. The programs aim to groom the talent and skills in students with the exposure to the experts in various fields.

We conduct the program every month in different category. Some of the programs we conducted in the past are as follows. Some of the scholars/ social leaders joined in our program are as follows.

1. Satyamohan Joshi
2. Prof. Dr. Madhav P. Pokhrel
3. Prof. Lal Deusa Rai
4. Prof. Parasuram kharel
5. Dr. Krishna Hari Baral
6. Dr. Chintamani Yogi
7. Bhairav Risal
8. Raghu Mainali
9. Wangchu Sherpa

10. Sonam Sherpa
11. Karna Shakya
12. Yogi Chham

Message

Chairman

Education should be employment-oriented. But, the education of the twenty first century should not be limited only to that. We are standing at the frontiers of the third millennium. Therefore, education of today should develop the skills that can bring into use the overall means and resources of the nation. Our strong conviction is that today's education should be able to enhance the inherent qualities and intuition of the individual, and prepared a creative manpower alert not only of the global needs but sensitive about our unique national spirit too.

We don't find much attention given to promote higher education with the aim to make significant difference in the university education in the country. Therefore, our focus is directed to that area. our aim is to begin bachelor's level programs with ample emphasis in researches and practical implementation at first, and then to move on to masters and M.Phil Levels gradually .Our efforts, on the whole is to contribute to the quest of human knowledge and civilization with equal important on our values and ethics .

With the vigilant guidance of senior professors of the university and active dedication of young scholars, this unique academic team is devoted to create a family academic environment which will give an exposure to the talent hidden within every individual. I assure you all that we shall always stick to our dedication and high academic aspirations.

Prof. Thakur Parajuli

Chairman

Four decades of teaching experience in TU. Former Head, Central Department of Nepal of Nepali, TU Chairman, Nepali subject committee, SHEB and Member TU Author, Nepali Sahityako Parikrama and more than 300 research articles and criticism.

Students

Dear all,

I'm Saiju Shrestha, proud to be one of the students of Greenfield National College (GNC). I completed my graduation in Bachelors of Arts from GNC in the year, 2010. With the blessings of all my teachers, parents and friends I'm a T.U topper this year in journalism subject. I feel proud for achieving such a great and excellent result from both GNC and T.U. For this, I must thank to my god who blessed me with such a good fortune. I must thank my parents for their continuous support and finally myself for choosing GNC as my college for Bachelor studies.

Greenfield National College (GNC) is not just a college for me, but a temple and I see wisdom, knowledge, virtue, faith and beauty all around. I affirm that the education I gained from my college will always encourage me to keep going through the path of success. My present success and the position where I am today is chiefly the outcomes of all my respected teacher of GNC. They have always been a source of inspiration for me. My special thanks goes to Mr. Laxman Ghimire, Principle of GNC, Mr. Basanta Kumar Bhattarai , Vice Principle, and all my teacher of journalism Mr. Raju Silwal, Mr. Purushottam Ghimire, Mr. Saroj Dhakal and Mr. Dilliram Bhattarai. In general, I'm thankful towards whole GNC family. May our bondage remain in peace and happiness till the eternity.

I believe that everyone is special and all have potentiality to fulfill their own dreams. First, trust yourself and have self confidence then only you can achieve your dreams."Dare to Dream " is the mission of GNC and you'll be realizing its value soon as you keep growing with this college. Let's make our GNC glorious and proud every year, this year it was my turn and in the coming years, it's all yours.

Thanking you

Saiju shrestha

2007-2010 Batch

Most people think once they have a qualification, that's it, they have arrived. Is it any wonder that they do not grow? They are stagnant- stock at 20 or 22. Most of us won't even read unless there is exam in sight. But you know what? Every day of your life is an exam. Every day you either pass or fail is the test of life. Every day is an opportunity to go beyond your present boundaries and circumstances. Every day is a chance to become a better person. You roll a small piece of paper, with everything pre-written in it, as a 'cheat' in your examination. But these small pieces of paper do not work in the test of life, because no one knows what life has to offer next. And, Greenfield National College has taught me to become a better person each day; thank you GNC!

Just like feeding the snake with milk only increase its venom; likewise advice given to fools makes them angry instead of calming them down. I hope my message do not turn out to be the milk and hope you won't be those snakes. Thank you

Prayas Rajopadhyaya
