Islington College

Developing Strategic Leaders

who know how to develop new visions
and achieve them

Welcome to Islington College, the premier college in Nepal offering world-class IT and Business Degrees. Here, we aspire to launch innovative leaders. We are dedicated towards providing the combined industry practices for undergraduate and postgraduate programmes that would enhance our students to compete in the global market place. We deliver high quality academic standards and complement our academics with practical career enhancing skills such as international training partnerships with the University of the Thai Chamber of Commerce (UTCC) and the Alibaba Group, China. At Islington, you will stand out not only because of your knowledge but also because of your interpersonal skills and international perspective that the market demands.

Dr. Benson Soong (PhD, Cambridge)
Chief Academic Officer

“ At Islington College, we will push you and make you work and study harder than you ever did. But at the end of the journey, you will be technically competent and also gain the social and presentation skills that will enable you to achieve success after success. So come prepared to be transformed. ”

Building doors to opportunities with skills and connections
to set you apart

Islington has partnered with University of the Thai Chamber of Commerce (UTCC), Thailand and Alibaba Group, China

where students will be trained about E-commerce and Executive Leadership. This is a great opportunity for our students to build network with international business leaders and make international deals.

Mr. Sulav Budhathoki - Chairman and Chief Executive of Islington College signing MOU with Dr. Jakarin Srimoon - Dean of UTCC International College, Thailand (left) and Prof. John Raftery - Vice Chancellor of London Met (right).

UTCC

INTERNATIONAL

“Dare to be Different”

UTCC University of
the Thai Chamber
of Commerce
มหาวิทยาลัยหอการค้าไทย

The University of the Thai Chamber of Commerce (UTCC) is the oldest private non-profit higher education institution where academic theories and business experiences are integrated to produce graduates who can successfully meet today's business challenges. MBA students from Islington College will visit UTCC, Thailand where they will undergo a 3-day E-commerce Certification course by UTCC and Alibaba Group.

阿里巴巴 
Alibaba.comTM

After the training at UTCC, students will visit the Alibaba Group, China. The Alibaba group is known as the biggest online commerce company and is a leading wholesale marketplace for global trade with buyers located in more than 200 countries and regions all over the world.

The background of the slide is a photograph of a person's hands writing in a spiral notebook. A white mug is visible on the left, and a pen lies on the desk in the foreground. The entire image is overlaid with a semi-transparent dark red filter.

MBA at Islington

Path to strategic leadership built on integrity and professionalism

MBA has been designed for candidates from diverse background, focusing on those who have practised working experience in managerial positions. To build on that experience, we offer multi-disciplinary knowledge and skills to develop thoughtful and influential managers and leaders. Furthermore, the global exposure and training will provide an opportunity to develop new business perspective and network that will ultimately enhance the leadership, decision-making and problem-solving skills.

MBA Entry Requirements

- A lower second (2.2) UK first degree or equivalent
- 2 years relevant work experience in an appropriate business or managerial role
- For non-UK – appropriate undergraduate degree equivalent to UK second-class honors degree/ IELTS 6.0 overall band score with 5.5 in each band (with support)

International Business Exposure

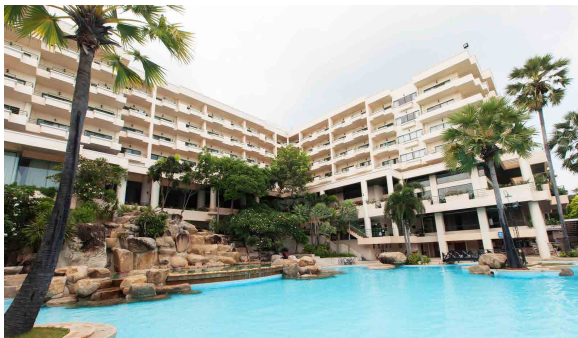

The MBA will provide practical international business capabilities

The exposure and visit to the major trading and industrial centres is a great opportunity for our students to meet potential business partners and most importantly establish a business relationship with the key suppliers and international companies. The **HSK level 3 Chinese language qualification** offered to our MBA students will be an added advantage for international trade and business.

Thailand – Bangkok, ChonBuri/Rayong

Visit International companies and
meet business leaders.

Executive leadership training in a resort setting.

China – Guangzhou, Zhejiang

Visit to the largest import and export exhibition at the
'China Import and Export Fair', also known as 'The
Canton Fair' has the largest assortment of products, the
largest attendance and the largest number of business
deals made at the fair.

Visit to Yiwu International Trade City

Tour to 'Dongguan' the Factory of the world, largest
international industrial manufacture centre.

Practical Executive Development

The MBA will make real contributions to your career goals

A Rigorous, Flexible Curriculum That inspires and challenges you intellectually

A world-class master's degree, taught by nationally and internationally recognised and experienced faculties, provides you with a space to think and develop professionally. Real life and work based assessment will equip you with skills that you can implement directly at your workplace. The featured activities such as networking meetings, international workshops and presentations by national and international speakers will help you expand your network. Subsequently, you will have the exposure, experience, knowledge and skills essential for a professional career in the span of 2 years at Islington.

Academic experience through a broad continuum of expertise,

MBA has been designed for candidates from diverse background, focusing on those who have practised working experience in managerial positions. To build on that experience, we offer multi-disciplinary knowledge and skills to develop thoughtful and influential managers and leaders.

Teaching Methodology

Islington MBA focuses on active practical learning. We deliver lessons through a 'flipped classroom' approach, where we collectively solve real challenges at work to make a positive impact on your career. This is complemented by group activities, role plays, discussions and industrial visit during teaching time.

Entrepreneurial Springboard

The MBA will provide Nepalese entrepreneurs the best possible head-start

Islington College will co-develop and co-invest in international business ideas and organization that develops Nepal and improves lives.

Islington College has successfully invested in Rigo Technology. Rigo Technology is the leader in Financial Application Development, Managed Security service provider and Information System Security Audit in Nepal.

Module Description

Management Learning and Research (MN7183)

This module anticipates the responsible management learning for dynamic and complex environment including professional and personal responsibility for making a justifiable decision. It initiates towards providing a comprehensive introduction to research philosophy, methodology, design and their application in researching business-related issues in diverse domestic and international contexts.

Accounting and Finance for Managers (AC7052)

This module interprets accounting statements and reports, and uses the information for decision making in short and long terms. It helps to examine ethics and ethical principles / codes that impinge on the norm in professional life and how ethical codes could assist both professional and corporations to act in an ethical manner. It provides an understanding of economic tools and their applications to inform financial data.

Leadership and Strategic Management (MN7185)

This module aims to stimulate the student's critical awareness and application of key leadership and strategic management theories to their own practice and develop their ability to evaluate current practice in the light of relevant academic theories.

People and Organisations: Principles and Practices in Global Contexts (MN7181)

This module specifies on factors that are relevant to "Management in Global Context" that includes internal and external environments influencing on decision making. This module also helps to understand a fundamental social, psychological and legal relationship – which is a key to appreciating how the work, the workplace, and the role and functions of HR are changing in the 21st century.

Marketing, Marketing Communications and Operations (MN7182)

This module aims to encourage the student to appreciate the tools marketing provides about the business planner and learn how to make use of them in a real business context. It widens the understanding of the key principles of marketing and delivers a deeper understanding on companies' plan, implementation and relevant marketing tools including the elements of marketing mix.

Business Research Project (MN7P95)

This module builds on the module Management Learning and Research, where students will have identified a suitable topic for research and produce a research paper.

Innovation Management (MN7184)

This module enhances students academic understanding of the multi-disciplinary aspects of innovation. It helps to relate student's knowledge and experience to developing their own personal and professional methods of managing innovation in practice.

Developing Effectiveness in Leadership and Management (MN7186)

The module aims to assist students in becoming aware about the influence on their personal potential and development needs with regard to leadership and management in a global context.
