

# ForumIAS Prelims 2019 Simulator™ Test Series – Begins with Simulator 0 | 17th March, 2019

All India Open GS Test – Simulator 0 + 8 GS Simulator™ Tests + 4 CSAT Simulator Test

## What is ForumIAS Prelims Simulator Test Series?

Simulator Test series consists of 8 GS Simulator Tests + 4 CSAT Simulator Tests.

ForumIAS Simulator Tests are the gold standard for Prelims Test Papers, where each Simulator Test is carefully crafted to replicate the exact pattern of previous years UPSC papers with topics relevant to current year. The difficulty level, type of the question and distribution of the subjects is stimulated.

The Simulator Tests help you test your preparation level, make timely corrections in case of any deficiencies, practice writing the paper upto 8 times before you write the actual paper. No wonder, more than half of IFoS Selected Candidates ( where Prelims Cut off is higher ) trust ForumIAS Simulator Test Series.

**What is ForumIAS Simulator 0?** Every year the first simulator tests is christened as Simulator 0. It is an All India Open Test – conducted in both Online & Offline Mode. More than 8,000+ students participated in the Simulator 0 in 2018. Generally held about 2.5 months before the Prelims Test, it provides you a early opportunity to gauge your preparedness for the exam as well as the preparedness of the upcoming competition. This will also help you to take corrective steps in your endeavor to excel in the final exam.

**I have joined other test series, how will I benefit from Simulator Test Series?** The Simulator Tests aims to remove the unpredictability in the Prelims Examination by preparing for any kind of paper. UPSC Prelims paper will no more be unpredictable for you. It also has the choicest of questions – ensuring that only the most relevant and expected questions are asked, thus ensuring you add to both your knowledge base as well as problem solving skills. Over the 9 papers you get to revise over 900 important and relevant topics for year 2019.

## I am a student of ForumIAS SFG program. Do I need to join ForumIAS Prelims Simulator Test Series?

While the SFG made sure that you have read each and every page of recommended text books for the exam – a prerequisite for getting into the game, the Simulator tests help apply the knowledge you have built through SFG. The Simulator Tests differ from the SFG because you do not have questions from single topics per se, but that which require wider knowledge not restricted to isolated chapters. In short, you have solved chapter-wise questions till now. In Simulators, you will learn to apply the basic concepts to solve better questions.

You also get to write the papers in examination mode with a tough competitive pool of aspirants. 3600+ students joined Simulator Test Series last year in which around 2000 wrote the exam in regular manner. Note that while ForumIAS may have a smaller pool, it is a more competitive pool of students that represents the actual crowd writing the exam, hence a good rank and performance in Simulators ensures a good performance in the actual exam.

## What all will you get in ForumIAS Simulator Test Series?

Apart from tests, you will receive for every test:

- Detailed Solutions
- Classroom discussions
- All India Ranking
- Analysis to provide an insight into your own performance as well as that of your competition.

## How to enroll?

You can find the details, payment link for the Prelims Simulator Test Series and registration link for the Open Test on <https://academy.forumias.com/simulator2019>.

You can enroll by visiting the Offline Center, or by visiting <http://academy.forumias.com>. For help with respect to admissions, you can email us at [admissions@forumias.academy](mailto:admissions@forumias.academy)
