

## **Clarification to all Students Taking / Planning to take CA for Mains 2020 / Existing Students of Current Affairs (for Covid Year 2020)**

1. This year (2020) we have an unprecedented situation caused by the Covid-19 pandemic. This has required us to make changes to how we conduct the CA Program.
2. Every year we have about 20 plus classes for the Mains Batch that starts after the Prelims.
3. **However**, given the current situation, we would like to clarify that for this year Mains 2020, we are likely to have 40+ classes (20+ class on Pre-Covid Issues and 20+ classes on Post Covid Issues)
4. **Therefore**, the Mains Batch is starting early this year from July 4. It is expected that students should have finished about 20+ lectures before the Prelims (or as many as possible, at their pace) . After Prelims, we shall have completely new issues – all post Covid Issues.
5. There will no Batch for Mains 2020 different from the Mains 2020 Batch starting from July 4. Candidates planning to take up Mains CA Classes after Prelims must take up the July 4<sup>th</sup> Batch itself.
6. July 4<sup>th</sup> Batch for Mains 2020 will have all the issues that have been covered since November 2019 for Mains 2020. In addition to this, they will have some additional classes on Post Covid Issues before Prelims. A broad list of issues has been provided as an Annexure to this document.
7. After Prelims, remaining classes on post Covid – 19 issues will be done.
8. Existing students of CA (Pre+ Mains) 2020 will have some Prelims classes and some Mains oriented classes again in July. They are requested not to raise tickets or emails as every year whatever is covered for Prelims or Mains is covered uniformly across all the Batches. No topics will be left out in any Batch.

## **Annexure 1 : Topic to be covered through 20+ classes before Prelims for July 4 Batch**

(This is not an exhaustive list. Candidates can expect a wholistic coverage of GS Paper 2 & 3 Dynamic Issues for Mains 2020 through the course. The focus is on content differentiation, and ideas that are useful from exam point of view)
