# ABOUT THE PROGRAM

## About Geography - ATS

ForumIAS Geography ATS is designed keeping in mind the current UPSC Mains trend for Geography optional. The prime objective of this programme is to make students **develop their analytical thinking** by way of writing answers that are subject relevant, for both conventional as well as current affairs-based questions.

Writing good geography answers require candidates to be able to **synthesize different ideas**, prioritize them, and present them in a coherent manner using **diagrams/maps/schematics to illustrate multiple interlinkages**. This will be an important focus of Geography ATS. Candidates will also learn how to write good geography answers for questions that seem too general. Further, Geography ATS will also help candidates develop an **aptitude for on-the-spot thinking** without compromising on the desired pace needed for mains optional examination.
