WEST COAST DUCK RACE

LIFE EDUCATION Learning with Harold

Duck DECORATING RULES AND GUIDELINES

- Keep your duck's number visible. The bottom of your duck must be left completely clear of paint, decorations or other adornments so its race number can be easily read.
- Use approved paint only. Ducks may only be painted or decorated using acrylic paint or marine paint.
- Secure all decorations. Any adornments, accessories or decorations must be firmly attached to your duck to ensure they do not come loose during the race.
- No holes permitted. Ducks must not be drilled, pierced, cut or have holes added in any way.
- No motors or propulsion. Ducks must not be fitted with motors, propellers, propulsion devices or any other mechanism designed to give them an advantage in the race.
- Keep it fair. All decorations must be for visual appeal only and must not alter the duck's ability to race or provide an unfair advantage.

Most importantly...

Have fun and let your imagination run wild!

We encourage everyone to get creative and make their duck unique. Whether you're entering the Community Race or the Corporate Race, we can't wait to see your fabulous creations!

Thank you for supporting Life Education Trust West Coast and helping us make this a fantastic community event.

Race schedule

1.00pm Community Race
1.30pm Corporate Race

Bring your duck entry to the registration table on race day!
All entries for the community race need to be received by 12.30pm at the latest, entries for corporate race received by 12.45pm
