Muntinlupa City 1773 Philippines

Item 2. Dissenters' Right of Appraisal

The matters to be acted upon at this Annual Stockholders' Meeting are not matters with respect to which a dissenting stockholder may exercise his appraisal right under Section 81 of the Corporation Code.

Under Section 81 of the Corporation Code, the following are the instances when a stockholder may exercise his appraisal right:

1. In case any amendment to the articles of incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence;
2. In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets of the Corporation; and
3. In case of merger or consolidation.

In order that a dissenting stockholder may exercise his appraisal right, such dissenting stockholder must have voted against the proposed corporate action at the annual meeting. Within thirty (30) days after the date of the annual meeting at which meeting such stockholder voted against the corporate action, the dissenting stockholder shall make a written demand on the Corporation for the fair value of his shares which shall be agreed upon by the dissenting stockholder and the Corporation. If the proposed corporate action is implemented, the Corporation shall pay the dissenting stockholder upon surrendering the certificates of stock representing his shares, the fair value of said shares on the day prior to the date on which the vote was taken. If the dissenting stockholder and the Corporation cannot agree on the fair value of the shares within sixty (60) days from the date of stockholders' approval of the corporate action, then the determination of the fair value of the shares shall be made by three (3) disinterested persons, one of whom shall be named by the dissenting stockholder, one by the Corporation and the third to be named by the two (2) already chosen. The findings of the majority of the appraisers shall be final and their award shall be paid by the Corporation within thirty

(30) days after such award is made. The procedure to be followed in exercising the appraisal right shall be in accordance with Sections 81 to 86 of the Corporation Code.

Item 3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

No director or officer of the Corporation has any substantial interest, direct or indirect, in any of the matters to be acted upon in the Annual Stockholders' Meeting.

No director has informed the Corporation of his opposition to any matter to be acted upon during the Annual Stockholders' Meeting.

B. CONTROL AND COMPENSATION INFORMATION

Item 4. Voting Securities and Principal Holders Thereof

The total number of shares of the Corporation outstanding and entitled to vote in the Annual Stockholders' Meeting is 3,693,772,279 common shares. The record date for purposes of determining the stockholders entitled to notice of and to vote at the Corporation's Annual Stockholders' Meeting is 24 September 2010. Each stockholder shall be entitled to one (1) vote for each common share of stock held as of the record date.

Holders of the common shares of stock of the Corporation are entitled to vote on all matters to be voted upon by the stockholders. Stockholders entitled to vote are also entitled to cumulative voting in the election of directors. Section 24 of the Corporation Code states: "...In stock corporations, every stockholder entitled to vote shall have the right to vote in person or by proxy the number of shares of stock standing, at the time fixed in the by-laws, in his own name on the stock books of the corporation, or where the by-laws are silent, at the time of the election; and said stockholder may vote such number of shares for as many persons as there are directors to be elected or he may cumulate said shares and give one candidate as many votes as the number of directors to be elected multiplied by the number of his shares shall equal, or he may distribute them on the same principle among as many candidates as he shall see fit..."

The auditing firm of Manabat Sanagustin & Co. is being recommended for election as external auditor for the ensuing year (2010-2011).

Representatives of said firm are expected to be present at the Annual Stockholders' Meeting and will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions.

Aggregate fees billed by the Corporation's external auditor for professional services in relation to (i) the audit of the Corporation's annual financial statements and services in connection with (a) statutory and regulatory filings and (b) the initial public offering of the Corporation's shares; and (ii) tax accounting, compliance, advice, planning and any other form of tax services are summarized as follows:

	FY 2010	FY 2009	FY 2008
Statutory audit fees	₱ 3.68 Million	₱ 3.50 Million	₱3.40 Million
IPO-related audit fees	-	-	₱15.70 Million
Tax advice fees	-	₱0.33 Million	₱0.25 Million
Total	₱ 3.68 Million	₱3.83 Million	₱19.35 Million

The Audit Committee of the Corporation reviews and approves the audit plan and scope of work for the above services and ensures that the rates are competitive as compared to the fees charged by other equally competent external auditors performing similar services.

During the Corporation's two most recent fiscal years or any subsequent interim periods, there was no instance where the Corporation's public accountants resigned or indicated that they decline to stand for re-election or were dismissed nor was there any instance where the Corporation had any disagreement with its public accountants on any accounting or financial disclosure issue.

In compliance with Rule 68 (3) (b) (iv) of the Securities Regulation Code, the Corporation has engaged Ms. Emerald Anne C. Bagnes, partner of KPMG Manabat Sanagustin & Co., to sign the Corporation's audited financial statements as of 30 June 2010. Ms. Bagnes has been signing the audited financial statements of the Corporation since 2006. The Corporation became publicly listed with the Philippine Stock Exchange only on 1 February 2008.

3. Appointment of External Auditors.

Item 19. Voting Procedures

Manner of voting

In all items for approval, except in the election of directors, each share of stock entitles its registered owner to one vote.

For the purpose of electing directors, a stockholder may vote such number of his/her shares for as many persons as there are directors to be elected or he/she may cumulate said shares and give one candidate as many votes as the number of directors to be elected multiplied by the number of his/her shares shall equal, or he/she may distribute them in the same principle among as many candidates as he/she shall see fit.

As required by the Corporation's By-laws, voting will be done by ballot.

Voting requirements

- (a) With respect to the election of directors, candidates who received the highest number of votes shall be declared elected.
- (b) With respect to the adoption of the Audited Financial Statements for the year ended 30 June 2010, as well as the approval or ratification of the other actions set forth under the heading "Other Proposed Actions" above, the vote of a majority of the outstanding capital stock entitled to vote and represented in the meeting is required to approve such matters.

Method of counting votes

The Corporate Secretary, assisted by her staff and the stock transfer agent, will be responsible for counting and tabulating the votes based on the number of shares entitled to vote owned by the stockholders who are present or represented by proxies at the Annual Stockholders' Meeting.

UPON THE WRITTEN REQUEST OF A STOCKHOLDER, THE COMPANY UNDERTAKES TO FURNISH SAID STOCKHOLDER A COPY OF SEC FORM 17-A FREE OF CHARGE, EXCEPT FOR EXHIBITS ATTACHED THERETO WHICH SHALL BE CHARGED AT COST. ANY WRITTEN REQUEST FOR A COPY OF SEC FORM 17-A SHALL BE ADDRESSED AS FOLLOWS:

MANAGEMENT REPORT

I. GENERAL NATURE AND SCOPE OF THE BUSINESS

Overview

The Corporation was registered with the Philippine Securities and Exchange Commission on 8 March 1989 primarily to engage in manufacturing, sales and distribution of carbonated soft-drinks and non-carbonated beverages to retail, wholesale, restaurants and bar trades. The registered office address and principal place of business of the Corporation is Km. 29, National Road, Tunasan, Muntinlupa City.

The Corporation is a licensed bottler of PepsiCo and Pepsi Lipton beverages in the Philippines. It manufactures a range of carbonated soft drinks and non-carbonated beverages that includes well-known brands Pepsi-Cola, 7Up, Mountain Dew, Mirinda, Gatorade, Tropicana/Twister, Lipton, Sting and Propel.

Philippine Beverage Industry

The beverage market in the Philippines is highly competitive. Competition is primarily through advertising and marketing programs that create brand awareness, price and price promotions, new product development, distribution and availability, packaging and customer goodwill.

Competitors in the carbonated soft drinks (CSD) market are The Coca-Cola Company, Asiawide Refreshments Corporation, and Asia Brewery Incorporated. The substantial investment in multiple plants, distribution infrastructure and systems and the float of returnable glass bottles (RGBs) and plastic shells required to operate a nationwide beverage business using RGBs represent a significant barrier to potential competitors in widening their reach.

The market for non-carbonated beverages (NCB) is more fragmented. Major competitors in this market are The Coca-Cola Company, San Miguel Corporation, Universal Robina Corporation, Zesto Corporation, among others. In recent years, the market has been relatively fluid, with frequent product launches and shifting consumer preferences. These trends are expected to continue.

Customers/Distribution Methods of the Products

The Corporation has a broad customer base nationwide. Its customers include supermarkets, convenience stores, bars, sari-sari stores and carinderias.

The Corporation's sales volumes depend on the reach of its distribution network. It increases the reach of distribution system by adding routes and increasing penetration by adding outlets on existing routes that currently do not stock its products. It relies on a number of channels to reach retail outlets, including direct sales, distributors and wholesalers.

The backbone of the distribution system is what is referred to as "Entrepreneurial Distribution System," which consists of independent contractors who service one or more sales "routes," usually by truck, selling directly to retail outlets and collecting empty RGBs.

It also employs its own sales force, which principally sells to what is referred to as the "modern trade" channel, consisting largely of supermarkets and restaurant and convenience store chains. Most of

these sales are credit sales that are fulfilled by third party distributors. In addition, it sells products to third party wholesalers and distributors, which sell them to retail outlets.

An important aspect of the distribution system is the infrastructure-intensive process of selling and delivering RGB products to many thousands of small retailers, including sari-sari stores and carinderias. The efforts to increase the reach of our distribution network require significant investments in distribution infrastructure such as additional trucks, refrigeration equipment, warehouse space and a larger "float" of glass bottles and plastic shells, as well as higher costs for additional sales and distribution staff.

Principal Suppliers

Over half of total costs comprise purchases of raw materials. Largest purchases are of sugar and beverage concentrates. The Corporation purchases all sugar requirements domestically because of import restrictions imposed by the Philippine government. It purchases beverage concentrates from PepsiCo, Inc. and Pepsi Lipton International Limited at prices that are fixed as a percentage of the wholesale prices charged for the finished products, subject to a floor price in U.S. dollars.

Another substantial cost is packaging. The major components of this expense are purchases of PET pre-forms, which are converted into PET bottles at the plants, non-reusable glass bottles, aluminum cans and closures. It also makes regular purchases of RGBs to maintain float at appropriate levels. Purchases of each of these materials are from suppliers based in the Philippines and in other parts of Asia, usually under short term, fixed price contracts.

Legal Proceedings

From time to time, the Corporation becomes a party to litigation in the ordinary course of its business. The majority of the cases in which the Corporation is a party are cases it files to recover debts in relation to unpaid receivables by its trade partners or in relation to cash or route shortages, private criminal prosecutions that it brings (generally for low value offenses such as theft of product or distribution equipment, fraud, and bouncing checks), labor cases for alleged illegal dismissal (which are usually accompanied by demands for reinstatement in the Corporation without loss of seniority rights, and payment of backwages), and consumer cases brought against it involving allegations of defective products.

As a result of a promotion in 1992, civil cases were filed against the Corporation in which thousands of individuals claimed to hold numbered bottle crowns that entitled them to a cash prize. The Philippine Supreme Court has consistently held in at least 7 final and executory decisions in the last 5 years that the Corporation is not liable to pay the amounts claimed. In the most recent of these decisions, the Supreme Court dismissed a similar claim, reiterating that it is bound by its pronouncement in a number of cases involving this promotion. By virtue of the precedential effect of the decided cases, the Corporation expects the remaining cases to be dismissed in due course.

The Corporation does not believe that the litigation in which it is currently involved or which is presently pending or threatened against it is material to it, either individually or in the aggregate. The Corporation has not been involved in any bankruptcy, receivership or other similar proceedings.

30 September 2009	0.15	15 October 2009	29 October 2009

On 9 September 2010, the Board approved the declaration of cash dividends amounting to ₱369 million or ₱0.10 per share to stockholders of record as of 24 September 2010 payable on or before 8 October 2010.

Dividend Policy

The Corporation has a dividend policy to declare dividends to stockholders of record, which are paid from unrestricted retained earnings. Any future dividends it pays will be at the discretion of the Board after taking into account the earnings, cash flow, financial condition, capital and operating progress, and other factors as the Board may consider relevant. Subject to the foregoing, the present policy is to pay cash dividends up to 50% of its annual net income. This policy may be subject to future revision.

Cash dividends are subject to approval by the Board without need for stockholders' approval. Stock dividends require the further approval of the stockholders representing no less than 2/3 of the Corporation's outstanding capital stock.

Recent Sales of Unregistered or Exempt Securities including Recent Issuance of Securities Constituting an Exempt Transaction

There has been no recent sale of unregistered or exempt securities including recent issuance of securities constituting an exempt transaction.

III. FINANCIAL STATEMENTS

Please refer to the Audited Financial Statements of the Corporation as of 30 June 2010 which is attached hereto as Exhibit 1.

IV. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There has been no change in the independent auditing firm or handling partner or disagreements with the independent CPA on matters relating to the application and interpretation of accounting principles or practices, tax laws and regulations, financial statement disclosures or audit scope and procedures during the three (3) most recent fiscal years.

V. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Results of Operations – for the fiscal 2010 versus 2009

The Corporation delivered a strong milestone year in terms of topline sales. It continued its focus on driving the growing NCB market and maintaining its CSD share by continuing its strategic agenda to drive affordability and availability across the Philippines. Net sales increased by 13.3% from 2009 and have nearly doubled from five years ago, an impressive feat given the aggressive competition and marketplace challenges.

The sales surge was led by NCBs posting an impressive 28% in revenue growth. With this development, NCB share revenue mix grew from 26% to 29%, which is in line with the strategy to fully embrace the health and wellness trend. CSDs also presented a strong 8% in revenue growth surpassing the last 7 years growth in this market. The strong CSD sales were buoyed by the national elections and the hot weather.

The impressive sales numbers however were tempered by rising sugar prices, which increased by 22%. In 2009, sugar prices rose to a 35-year high as rain damaged crops in Brazil, the largest producer, and dry weather curbed output in India, the second largest supplier. As supply slowed and demand continued to rise, the inventory reserves of many countries, including the Philippines, became depleted resulting to higher sugar prices and significantly affecting sugar-dependent food and beverage industries.

Despite this acute development, gross profit remained steady at P4.21 billion compared to last year's gross profit of P4.19 billion, while operating income slipped slightly to P996 million compared to last year's figure of P1.1 billion. EBITDA likewise remained steady at P2.2 billion versus year ago figure of P2.2 billion, while EBIT slightly dropped to P1.04 billion versus year ago figure of P1.2 billion, weighed down by higher depreciation and amortization resulting from recent expansion programs.

Management was able to mitigate the rise in sugar prices in part by continuing to successfully control and reduce operating expenses from 24% and 21% of sales in 2008 and 2009, respectively, to 20% in 2010. Notable reductions are in the area of selling and distribution expenses (from 13% of sales in 2009 to 12% in 2010) where Management's rationalization and re-engineering programs have managed to deliver superior service at much lower cost.

Marketing expenses as a percentage of sales were likewise lower (from 4% of sales in 2009 to 3% of sales in 2010). Focused marketing anchored on strategically targeted programs resulting in sales increases amid modest marketing spending. General administrative expenses remained steady at 4% of sales in 2010 and 2009, showing a firm-wide effort to manage the controllable variables in the Corporation's income statement. The Corporation's continued efforts to drive topline growth while maintaining tight cost control will be the sustaining force in the years to come.

Results of Operations - for the fiscal 2009 versus 2008

Fiscal year 2009 registered a healthy 5% growth in net income and 19% growth in operating income over year ago level. It maintained profitability, with EBITDA margin of 16%, EBIT margin of 8%, and Net Income margin of 6%. The corresponding numbers for fiscal year 2008 are 15%, 8% and 6%, respectively.

Net sales growth of 9.6% is driven mainly by growth in NCB brands such as Sting, Tropicana and Gatorade as well as CSD growth in flavors.

In line with its strategy of aggressively tapping the healthy growth prospects for NCBs with health and wellness as its platform and growing the business by targeting the broad CD mass market that still constitutes the majority of the Philippine population, the Corporation continues to expand its offering of beverage products to make NCB available to more Filipinos at affordable prices and convenient packaging. The Corporation has since completed the expansion projects in Cebu, San Fernando and Iloilo which made it possible to offer its NCB products in 8oz RGBs all over the country.

The Corporation launched new product innovations such as Tropicana Summer Blends and Gatorade Tiger and came out with high impact new packaging formats such as Pepsi Max black long neck 500 ml. PET, among other things, in order to create buzz and bring excitement to the consumers, as well

as use packaging to communicate and have a dialogue with consumers. It also launched the highly successful Mountain Dew 750 ml RB to leverage the brand's strong pull in trade.

The intensified competition from a crowded CSD market along with the challenge posed by low-priced brands compelled the Corporation to drop its prices. To counteract the adverse effect of low price, commoditized cola segment on its profitability, the Corporation continues to maintain a healthy revenue mix resulting to a 3% higher average LRB prices.

The weak economy, high inflation and stiff competition caused undue pressure on revenues and costs. Gross profit margin slightly dropped from 31.6% in 2008 to 29.4% in 2009 due to increased cost of inputs such as sugar, CO₂, packaging materials, fuel, and others during the 1st half of the fiscal year, as well as depressed CSD pricing brought about by intense competition. In spite of lower gross profit margin and higher manufacturing depreciation, gross profit grew by 1.9% due to volume growth.

On the other hand, operating income grew by 18.8% and operating income margin registered an improvement from 7.4% in 2008 to 8.0% in 2009 due to effective cost management. However, an increase in effective tax rate from 24.0% in 2008 to 32.3% in 2009 caused the net income margin to slightly drop from 5.9% to 5.6%.

Operating expenses as a ratio to net sales decreased from 24.2% to 21.4% mainly due to decrease in marketing expenses by 21.7%. The decrease in marketing expenses as a percentage of net sales dropped from 5.1% to 3.7% and is due to targeted and prudent marketing spending program initiated by Management in 2009.

As a percentage of net sales, selling and distribution (S&D) expenses decreased from 14.1% to 13.4%. In terms of absolute amount, S&D expenses increased by 4% as compared to year ago level. The increase can be attributed mainly to volume growth, as well as the Corporation's continued investment in its distribution infrastructure such as RGBs, plastic cases and in-store refrigeration equipment. These increases in S&D cost were offset by the savings on personnel, rental and utilities as a result of the rationalization of the number of its sales offices, as well as the effect of change in the estimated useful life of its marketing equipment from 5 years to 7 years.

Financial Condition and Liquidity

For the fiscal year 2010, the Corporation had strong operating cash flows, i.e., net cash provided by operating activities are substantially more than the net cash used in investing activities.

The Corporation's operations are cash intensive. This capability to generate cash is one of its greatest strengths. With its liquidity, the Corporation has substantial financial flexibility in varying operating policy in response to market demands, in meeting capital expenditures through internally-generated funds, and in providing the Corporation with a strong financial condition that gives it ready access to financing alternatives (refer to Note 4 of the Audited Financial Statements for a detailed discussion on the Corporation's revolving credit facilities as of 30 June 2010).

Credit sales over the past three years have changed from 62% of total sales in 2008 and 68% in 2009 to 64% in 2010. This reflects a shift from a direct distribution mode to a more efficient model of fostering partnership with distributors and multi-route Entrepreneurial Distribution System contractors, as well as increase in Modern Trade business. Liquidity has remained healthy. Collection periods have improved from 30 days in 2008 and 27 days in 2009 to just 26 days in 2010. Inventory days have decreased from 12 days in 2008 and 10 days in 2009 to just 8 days in 2010, reflecting a more efficient inventory and production management. Trade payable days have remained at manageable levels.

Increase in current assets from ₱2,293 million as of June 2009 to ₱2,758 million as of June 2010 was due to increase in cash and cash equivalents by ₱231 million, inventory by ₱122 million, receivables

by ₱87 million, and due to related parties by ₱49 million. The increase in cash is due to improved working capital management while the increases in receivables and inventories were in line with increase in sales volume.

Non-current assets decreased from ₱6,269 million as of June 2009 to ₱6,208 million as of June 2010 due to the decreased amount of bottles and cases (net of amortization) by ₱116 million, as well as decrease in other non-current assets by ₱35 million. These decreases were partially offset by the increase in plant, property and equipment by ₱88 million, as well as by the increase in investments in associates by ₱2 million. The increase in plant, property and equipment, on the other hand, is largely due to the continued expansion of plant capacity.

Increase in current liabilities from ₱2,275 million as of June 2009 to ₱2,472 million as of June 2010 is mainly due to increase in accounts payable and accrued expenses by ₱344 million. The increase in accounts payable and accrued expenses is partially offset by the decreased amounts from income tax payable by ₱98 million and notes payable by ₱50 million.

Non-current liabilities increased from ₱577 million as of June 2009 to ₱599 million as of June 2010 due to the increase in deferred tax liabilities by ₱16 million and increase in other non-current liabilities by ₱6 million.

Total assets increased from ₱8,562 million as of June 2009 to ₱8,966 million as of June 2010 mainly due to the significant increase in current assets described above. Total liabilities increased from ₱2,852 million as of June 2009 to ₱3,071 million as of June 2010 mainly due to similar factors stated in increase in current liabilities. Total equity increased from ₱5,710 million to ₱5,894 million on account of net income of ₱738 million for the year less dividends of ₱554 million paid during the year.

Material Commitments for Capital Expenditures

Historically, the Corporation has sourced funding for capital expenditures essential to product innovation initiatives and maintaining operational capabilities through internally-generated funds and long-term borrowings. In recent years, it has met these requirements substantially out of operating cash flow, and has incurred only short-term debt to assist with temporary liquidity requirements. In January 2008, it had embarked on an IPO, with net proceeds of approximately ₱1.2 billion, to fund the expansion of NCB business. As of June 2010, the IPO proceeds were fully utilized. The Corporation has completed the expansion projects of Cebu, San Fernando and Iloilo. Capital expenditure for fiscal year 2010 amounted to ₱1.127 billion.

Factors that may Impact the Corporation's Operations / Seasonality Aspects

Sales and profitability are affected by the overall performance of the Philippine economy, the natural seasonality of sales, the competitive environment of the beverage market in the Philippines, as well as changes in cost structures, among other factors.

Sales volumes are also affected by the weather, generally being higher in the hot, dry months from March through June and lower during the wetter monsoon months of July through October. In addition, the Philippines is exposed to risk of typhoons during the monsoon period. Typhoons usually result in substantially reduced sales in the affected area, and have, in the past, interrupted production at the plants in affected areas. While these factors lead to a natural seasonality in sales, unseasonable weather could also significantly affect sales and profitability compared to previous comparable periods. Sales during the Christmas/New Year holiday period in late December tend to be higher as well.

The CSD and NCB markets are both highly competitive. The actions of competitors, as well as the Corporation's own continuous efforts on pricing, marketing, promotions, and new product

development, affect sales. Some of the smaller competitors have lower cost bases than the Corporation and price their products lower than ours. Thus, in addition to the cost of producing and distributing our beverages, sales prices are greatly affected by the availability and price of competing brands in the market.

All of the Corporation's sales are denominated in Philippine pesos. However, some of the significant costs, such as purchases of packaging materials are denominated in United States dollars. Some other costs, which are incurred in Philippine pesos, can also be affected by fluctuations in the exchange rate between the Philippine peso and United States dollar. As a result, movements in the exchange rate between the Philippine peso and other currencies can have a significant effect on the results of operations.

The business requires a significant supply of raw materials and energy. The cost and supply of these materials could be adversely affected by changes in the world market prices on sugar, crude oil, aluminum, tin, PET resins, among others. Although direct purchases of fuel are relatively small as a proportion of total costs, the Corporation is exposed to fluctuations in the price of oil through the dependence on freight and delivery services. Changes in materials prices generally affect the competitors as well.

Margins differ between beverage products and package types and sizes. Excluding packaging, production costs are similar across the range of carbonated beverages, but vary between non-carbonated beverages. Packaging costs vary, with RGBs being less expensive than PET, aluminum cans or non-returnable glass. The incremental cost of producing larger-sized serves in the same package type is proportionately lower than the increased volume, creating opportunities to achieve higher margins where customers perceive value in terms of volume.

As a result of the factors discussed above, the margins the Corporation earns on the products can be substantially different, and the margins can change in both absolute and relative terms from period to period. While the Corporation attempts to adjust its product and package mix to maximize profitability, changes in consumer demand and the competitive landscape can have a significant impact on mix and therefore profitability.

The Corporation is also subject to credit risk, liquidity risk and various market risks, including risks from changes in commodity prices, interest rates and currency exchange rates (refer to Notes 4 and 23 of the 2010 Audited Financial Statements for discussion on Financial Risk Management).

The Corporation is not aware of any events that will trigger direct or contingent financial obligation that is material to the Corporation, including any default or acceleration of an obligation.

To the Corporation's knowledge, there are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Corporation with unconsolidated entities or other persons created during the reporting period.

Significant Elements of Income or Loss that did not arise from Continuing Operations

There was no income or loss arising from discontinued operations.

VI. CORPORATE GOVERNANCE

The Corporation's Manual on Corporate Governance ("Manual"), which was adopted on 21 June 2007 and revised on 14 April 2010, details the standards by which it conducts sound corporate governance that is coherent and consistent with relevant laws and regulatory rules, and constantly strives to create value for its stockholders.

Compliance with the Manual's standards is monitored by the Corporation's Compliance Officer. Ultimate responsibility rests with its Board of Directors, which also maintains three (3) standing committees apart from the Executive Committee, each charged with oversight into specific areas of its business activities.

Executive Committee

The Executive Committee of the Board is responsible for developing and monitoring the Corporation's risk management policies. This Committee, which meets regularly, reviews the detailed financial and operating performance of the Corporation every month and reviews progress against the relevant Annual Operating Plan and Operating Targets, monitors the Corporation's progress against key initiatives, pricing strategies and plans, sales and marketing plans, capital expenditure planning and key decisions on organization structure and people.

Based on the Manual, the Executive Committee shall be composed of at least five members, namely, the President-Chief Executive Officer, the Chief Operating Officer/s, the Chief Financial Officer, and such other directors.

The incumbent Chairman and members of the Executive Committee are as follows: Messrs. Micky Yong (Chairman), Partha Chakrabarti (Chief Operating Officer for Finance, Treasury, HR/EIRC/Legal, Manufacturing and Logistics), Felix S. Yu (Chief Operating Officer for National Sales Operations), Akash Shah (CFO), Sunil D'Souza, James Eng Jr., Tsang Cho Tai (Allan Tsang) and Qasim Khan.

Audit Committee

The Audit Committee assists the Board in its fiduciary responsibilities as it provides an independent and objective assurance to the Management and shareholders of the Corporation that business operations are carried out according to approved standards and objectives, and the Corporation's resources are preserved and productive.

Based on the Manual, the Audit Committee shall be composed of at least three directors, preferably with accounting and finance/audit background. Two of the members must be independent directors, including the Chairman of the committee. The Audit Committee reports to the Board and is required to meet at least once every three months.

The incumbent Chairman and members of the Audit Committee are as follows: Messrs. Oscar S. Reyes (Chairman), John L. Sigalos, Tsang Cho Tai (Allan Tsang), and Rafael M. Alunan III.

Compensation and Remuneration Committee

The Compensation and Remuneration Committee, based on objective and impartial studies, utilizes a formal and transparent framework in determining the remuneration of the members of the Board and the Corporation's key executives. This committee's decisions on compensation issues are consistent with the requirements of objectivity, fairness and relevance.

Based on the Manual, the Compensation and Remuneration Committee shall be composed of at least three members, including one independent director. The Compensation and Remuneration Committee reports to the Board and is required to meet at least once each year.

The incumbent Chairman and members of the Compensation and Remuneration Committee are as follows: Messrs. James Eng Jr. (Chairman), Micky Yong, John L. Sigalos and Rafael M. Alunan III.

Nomination Committee

The Nomination Committee ensures that the Corporation's Board of Directors is made up of visionary, ethical and competent business leaders who can contribute to the vast range of ideas and reach decisions that will protect and grow the business. This committee also makes sure that the designated Board members address the higher purposes of the Corporation as a responsible enterprise which has a positive value on the communities where it operates.

Based on the Manual, the Nomination Committee shall be composed of at least three members, including one independent director. The Nomination Committee reports to the Board and is required to meet at least once each year.

The incumbent Chairman and members of the Nomination Committee are as follows: Messrs. Micky Yong (Chairman), James Eng Jr., John L. Sigalos and Rafael M. Alunan III.

For purposes of evaluating compliance with the Manual, the Corporation has adopted the self-rating form prescribed by the Securities and Exchange Commission ("SEC"). The Corporation has complied with its Manual through the election of two (2) independent directors to the Corporation's Board; the constitution of the Audit, Compensation and Remuneration, and Nomination Committees pursuant to its By-laws and the election of the Chairman and members of such committees, which include the independent directors; the conduct of regular meetings of the Board of Directors and the various committees of the Board abovestated; adherence to the written Code of Conduct prepared by the Corporation's Human Resources Department; and adherence to applicable accounting standards and disclosure requirements.

The Corporation adheres to a business plan, budget and marketing plan. Management prepares and submits to the Executive Committee of the Board and to the Board, on a regular basis, financial and operational reports which enable the Board and Management to assess the effectiveness and efficiency of the Corporation.

While the Corporation has fulfilled its corporate governance obligations and there has been no deviation from the Manual as of date, it continues to evaluate and review its Manual to ensure that best practices on corporate governance are being adopted.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
Pepsi-Cola Products Philippines, Inc.
Km. 29, National Road
Tunasan, Muntinlupa City

We have audited the accompanying financial statements of Pepsi-Cola Products Philippines, Inc., which comprise the statements of financial position as at June 30, 2010 and 2009, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended June 30, 2010, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Pepsi-Cola Products Philippines, Inc. as of June 30, 2010 and 2009, and its financial performance and its cash flows for each of the three years in the period ended June 30, 2010, in accordance with Philippine Financial Reporting Standards.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
Pepsi-Cola Products Philippines, Inc.
Km. 29, National Road
Tunasan, Muntinlupa City

We have audited in accordance with Philippine Standards on Auditing, the financial statements of Pepsi-Cola Products Philippines, Inc. as of and for the year ended June 30, 2010, included in this Form 17-A and have issued our report thereon dated September 15, 2010.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Reconciliation of Retained Earnings Available for Dividend Declaration is the responsibility of the Company's management. This schedule is presented for purposes of complying with the Securities and Exchange Commission Memorandum Circular No. 11, Series of 2008, *Guidelines on the Determination of Retained Earnings Available of Dividend Declaration*, and is not part of the basic financial statements. This schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly states in all material respects, the financial statements data required to be set forth therein in relation to the basic financial statements taken as a whole.

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR FINANCIAL STATEMENTS**

The management of PEPSI-COLA PRODUCTS PHILIPPINES, INC. is responsible for all information and representations contained in the accompanying financial statements, which comprise the statements of financial position as at June 30, 2010 and 2009, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended June 30, 2010. The financial statements have been prepared in conformity with Philippine Financial Reporting Standards and reflect amounts that are based on the best estimates and informed judgment of management with an appropriate consideration to materiality.

In this regard, management maintains a system of accounting and reporting which provides for the necessary internal controls to ensure that transactions are properly authorized and recorded, assets are safeguarded against unauthorized use or disposition and liabilities are recognized. The management likewise discloses to the Company's audit committee and to its external auditor: (i) all significant deficiencies in the design or operation of internal controls that could adversely affect its ability to record, process, and report financial data; (ii) material weaknesses in the internal controls; and (iii) any fraud that involves management or other employees who exercise significant roles in internal controls.

The Board of Directors reviews the financial statements before such statements are approved and submitted to the Stockholders of the Company.

Manabat Sanagustin & Co., CPAs, the independent auditors appointed by the Stockholders, has audited the financial statements of the Company in accordance with Philippine Standards on Auditing and has expressed its opinion on the fairness of presentation upon completion of such audit, in its report to the Board of Directors and Stockholders.

PEPSI-COLA PRODUCTS PHILIPPINES, INC.

NOTES TO THE FINANCIAL STATEMENTS

(Amounts in Thousands, Except Per Share Data and
When Otherwise Stated)

1. Reporting Entity

Pepsi-Cola Products Philippines, Inc. (the "Company") was registered with the Philippine Securities and Exchange Commission (SEC) on March 8, 1989, primarily to engage in manufacturing, sales and distribution of carbonated soft-drinks (CSD) and non-carbonated beverages (NCB) to retail, wholesale, restaurants and bar trades. The registered office address and principal place of business of the Company is Km. 29, National Road, Tunasan, Muntinlupa City.

2. Basis of Preparation

Statement of Compliance

The financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS includes statements named PFRS and Philippine Accounting Standards (PAS), including Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC), issued by the Financial Reporting Standards Council.

The financial statements of the Company which comprise statements of financial position as at June 30, 2010 and 2009, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended June 30, 2010 were approved and authorized for issue by the Company's Board of Directors (BOD) on September 15, 2010.

Certain accounts in the statement of financial position as of June 30, 2009 and statements of cash flows for the years ended June 30, 2009 and 2008 have been reclassified to conform to the 2010 presentation.

Basis of Measurement

The financial statements have been prepared on a historical cost basis.

Functional and Presentation Currency

The financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are presented in Philippine peso, which is also the Company's functional currency and all values are rounded to the nearest thousands, except per share data and when otherwise indicated.

Use of Estimates and Judgments

The preparation of the financial statements in accordance with PFRS requires management to make estimates and judgments that affect the application of accounting policies and the amounts reported in the financial statements. The estimates and judgments used in the accompanying financial statements are based on management's evaluation of relevant facts and circumstances as of the date of the Company's financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experiences and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are as follows:

Leases as Lessee

The Company has entered into various lease agreements as lessee.

The Company has determined that the lessor retains all significant risks and rewards of ownership of properties which are leased out under operating lease agreements. Rent expense pertaining to these leased properties amounted to P179 million in 2010, P153 million in 2009 and P162 million in 2008 (see Notes 14, 16, 17, 18 and 27).

The Company has determined that lease agreements on pallets and power generation facilities qualify as a finance lease since the provisions of the lease agreements effectively transfer ownership of the assets to the lessee by the end of the lease term. As of June 30, 2010 and 2009, the present value of minimum lease payments amounted to P226 million and P85 million, respectively (see Notes 9, 12 and 27).

Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency has been determined to be the Philippine peso. It is the currency that mainly influences the sales price of goods and the cost of providing these goods.

Contingencies

The Company is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the Company's defense relating to these matters and is based upon an analysis of potential results. The Company currently does not believe that these proceedings will have a material adverse effect on its financial statements. It is possible, however, that future financial performance could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings (see Note 27).

Estimating Allowance for Impairment Losses on Receivables

The Company maintains an allowance for impairment losses at a level considered adequate to provide for potential uncollectible receivables. The Company performs regular review of the age and status of these accounts, designed to identify accounts with objective evidence of impairment and provides these with the appropriate allowance for impairment losses. The review is accomplished using a combination of specific and collective assessment approaches, with the impairment losses being determined for each risk grouping identified by the Company. The amount and timing of recorded expenses for any period would differ if the Company made different judgments or utilized different methodologies. An increase in the allowance for impairment losses would increase recorded operating expenses and decrease current assets. As of June 30, 2010 and 2009, allowance for impairment losses on receivables amounted to P108 million and P150 million, respectively. Receivables, net of allowance for impairment losses, amounted to P1.075 billion and P988 million as of June 30, 2010 and 2009, respectively (see Note 6). No allowance for impairment losses is necessary for the Company's due from related parties as of June 30, 2010 and 2009.

Estimating Net Realizable Value of Inventories

In determining the net realizable value of inventories, the Company considers inventory obsolescence based on specific identification and as determined by management for inventories estimated to be unsaleable in the future. The Company reduces the cost of inventories to a realizable value at a level considered adequate to reflect market decline in value of the recorded inventory. The Company reviews, on a continuous basis, the product movement, changes in consumer demands and introduction of new products to identify inventories which are to be written down to net realizable values. The net realizable value of inventories amounted to P825 million and P704 million as of June 30, 2010 and 2009, respectively (see Note 7).

Estimating Useful Lives of the Excess of Cost of Containers over Deposit Values

The excess of the acquisition costs of the returnable bottles and cases over their deposit values is deferred and amortized over their estimated useful lives (EUL) principally determined by their historical breakage and trippage. A reduction in the EUL of excess of cost over deposit value would increase the recorded amortization and decrease noncurrent assets. As of June 30, 2010 and 2009, accumulated amortization of excess of cost over deposit values of returnable bottles and cases amounted to P3.735 billion and P3.172 billion, respectively. The carrying amounts of bottles and cases amounted to P2.325 billion and P2.441 billion as of June 30, 2010 and 2009, respectively (see Note 9).

Estimating Allowance for Unusable Containers

An allowance for unusable containers is maintained based on specific identification and as determined by management to cover bottles and shells that are no longer considered fit for use in the business, obsolete or in excess of the Company's needs. As of June 30, 2010 and 2009, allowance for unusable containers amounted to P13 million and P17 million, respectively (see Note 9).

Estimating Useful Lives of Property, Plant and Equipment

The Company reviews annually the EUL of property, plant and equipment based on the period over which the assets are expected to be available for use and updates those expectations if actual results differ from previous estimates due to physical wear and tear and technical or commercial obsolescence. It is possible that future financial performance could be materially affected by changes in these estimates brought about by changes in the factors mentioned. A reduction in the EUL of property, plant and equipment would increase the recorded depreciation and amortization expenses and decrease noncurrent assets.

The EUL are as follows:

	Number of Years
Buildings and leasehold improvements	20 or term of the lease, whichever is shorter
Machinery and other equipment	3 - 10
Furniture and fixtures	10

As of June 30, 2010 and 2009, the carrying amounts of property, plant and equipment amounted to P3.244 billion and P3.156 billion, respectively (see Note 10).

Estimating Allowance for Impairment Losses on Nonfinancial Assets

The Company assesses at each reporting date whether there is an indication that an item of bottles and cases, property, plant and equipment, investments in associates and other noncurrent assets may be impaired. Determining the value of the assets, which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets, requires the Company to make estimates and assumptions that can materially affect the financial statements. Future events could cause the Company to conclude that these assets are impaired. Any resulting impairment loss could have material impact on the financial position and financial performance of the Company.

The preparation of the estimated future cash flows involves judgment and estimations. While the Company believes that its assumptions are appropriate and reasonable, significant changes in these assumptions may materially affect the Company's assessment of the recoverable amounts and may lead to future additional impairment charges. As of June 30, 2010 and 2009, none of these impairment indicators exist on the Company's bottles and cases, property, plant and equipment, investments in associates and other noncurrent assets. As of June 30, 2010 and 2009, the carrying amounts of bottles and cases amounted to P2.325 billion and P2.441 billion, respectively (see Note 9). As of June 30, 2010 and 2009, the carrying amounts of property, plant and equipment amounted to P3.244 billion and P3.156 billion, respectively (see Note 10). Investments in associates amounted to P530 million and P528 million as of June 30, 2010 and 2009, respectively (see Note 8).

Estimating Realizability of Deferred Tax Assets

The Company reviews the carrying amounts of deferred tax assets at each reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. The Company's assessment on the recognition of deferred tax assets is based on the forecasted taxable income of the subsequent reporting periods. This forecast is based on the Company's past results and future expectations on revenues and expenses. The Company has no unrecognized deferred tax assets as of June 30, 2010 and 2009. As of June 30, 2010 and 2009, the Company has net deferred tax liabilities amounting to P392 million and P376 million, respectively (see Note 13).

Estimating Retirement Benefits Liability

The determination of the retirement benefits liability and retirement benefits cost is dependent on the selection of certain assumptions used by the actuary in calculating such amounts. Those assumptions include, among others, discount rates, expected returns on plan assets and salary increase rate. Actual results that differ from the Company's assumptions, subject to the 10% corridor test, are accumulated and amortized over future periods and therefore, generally affect the recognized expense and recorded obligations in such future periods. As of June 30, 2010 and 2009, the Company has unrecognized net actuarial gains amounting to P0.5 million and P7 million, respectively (see Note 24).

3. Significant Accounting Policies

The following explains the significant accounting policies which have been adopted in the preparation of the financial statements:

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial years except for the following new standard, revised standard, improvements to standards, amendments to standards and interpretation, which have been applied in preparing these financial statements:

- PFRS 8, *Operating Segments*, replaces PAS 14, *Segment Reporting*. This PFRS adopts a management approach in reporting segment information. The information reported would be that which management uses internally for evaluating the performance of operating segments and allocating resources to those segments. It is required for adoption only by entities whose debt or equity instruments are publicly traded, or are in the process of filing with the SEC for the purposes of issuing any class of instruments in a public market. The requirements of this new standard have been included in the preparation of the Company's financial statements.
- Revised PAS 1, *Presentation of Financial Statements (2007)*, introduces the term total comprehensive income, which represents changes in equity during a period other than those changes resulting from transactions with owners in their capacity as owners. Total comprehensive income may be presented in either a single statement of comprehensive income (effectively combining both the income statement and all non-owner changes in equity in a single statement), or in an income statement and a statement of comprehensive income. The adoption of this revised PAS 1 resulted in the following: (a) change in the title from balance sheets to statements of financial position; and (b) change in the presentation of changes in equity and of comprehensive income - non-owner changes in equity are now presented in one statement of comprehensive income. In addition, comparative information has been re-presented in conformity with the revised standard.
- Revised PAS 23, *Borrowing Costs*, removes the option to expense borrowing costs and requires an entity to capitalize borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. The adoption of this revised standard did not have any significant impact on the Company's financial statements.
- *Improvements to PFRSs 2008* discuss 35 amendments and are divided into two parts: a) Part I includes 24 amendments that result in accounting changes for presentation, recognition or measurement purposes; and b) Part II includes 11 terminology or editorial amendments that the International Accounting Standards Board (IASB) expects to have either no or only minimal effects on accounting. The adoption of these improvements did not have any significant impact on the Company's financial statements.
- Amendments to PFRS 7, *Improving Disclosures about Financial Instruments*, enhance disclosures over fair value measurements relating to financial instruments, specifically in relation to disclosures over the inputs used in valuations techniques and the uncertainty associated with such valuations. The amendments also improve disclosures over liquidity risk to address current diversity in practice on how such disclosure requirements are being interpreted and applied, proposing quantitative disclosures based on how liquidity risk is managed and strengthening the relationship between quantitative and qualitative liquidity risk disclosures. As allowed by the

amendments, in the first year of application, the Company does not need to provide comparative information. Additional disclosures required in the amendments to PFRS 7 are shown in Note 23 to the financial statements.

- Philippine Interpretation IFRIC 17, *Distributions of Noncash Assets to Owners*, provides guidance on the accounting for non-reciprocal distributions of non-cash assets to owners acting in their capacity as owners. It also applies to distributions in which the owners may elect to receive either the non-cash asset or a cash alternative. The liability for the dividend payable is measured at the fair value of the assets to be distributed. The adoption of this interpretation did not have any significant impact on the Company's financial statements.

New Standard, Revised Standard, Amendments to Standards, Improvements to Standards and Interpretation Not Yet Adopted

The Company has not applied the following new standard, revised standard, amendments to standards, improvements to standards and interpretation which have been approved but are not yet effective as of and for the year ended June 30, 2010:

- *Improvements to PFRSs 2009* contain 15 amendments to 12 standards. In particular the amendments to PAS 17, *Leases*, may affect the classification of leases of land and buildings, particularly in jurisdictions in which such leases often are for a long period of time. The amendments are generally effective for annual periods beginning on or after January 1, 2010. These improvements and amendments are not expected to have any significant impact on the Company's financial statements upon its adoption on July 1, 2010.
- Amendment to PAS 32, *Financial Instruments: Presentation - Classification of Rights Issues*, which will be effective for annual periods beginning on or after February 1, 2010. The amendment permits rights, options or warrants to acquire a fixed number of the entity's own equity instruments for a fixed amount of any currency to be classified as equity instruments provided the entity offers the rights, options or warrants pro rata to all of its existing owners of the same class of its own non-derivative equity instruments. The amendment is not expected to have any significant impact on the Company's financial statements upon its adoption on July 1, 2010.
- Philippine Interpretation IFRIC-19, *Extinguishing Financial Liabilities with Equity Instruments*, which will be effective for annual periods beginning on or after July 1, 2010. The interpretation addresses issues in respect of the accounting by the debtor in a debt for equity swap transaction. It clarifies that equity instruments issued to a creditor to extinguish all or part of a financial liability in a debt for equity swap are consideration paid in accordance with PAS 39, *Financial Instruments: Recognition and Measurement*, paragraph 41. This interpretation is not expected to have any significant impact on the Company's financial statements upon its adoption on July 1, 2010.
- Revised PAS 24, *Related Party Disclosures (2009)*, which will be effective for annual periods beginning on or after January 1, 2011. The revised standard amends the definition of a related party and modifies certain related party disclosure requirements for government-related entities. The revised standard is not expected to have any significant impact on the Company's financial statements upon its adoption on July 1, 2011.

- PFRS 9, *Financial Instruments*, which will be effective for annual periods beginning on or after January 1, 2013. This standard was issued as part of a wider project to replace PAS 39, *Financial Instruments: Recognition and Measurement*. PFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and contractual cash flow characteristics of the financial asset. The guidance in PAS 39 on impairment of financial assets and hedge accounting continues to apply. The new standard is not expected to have any significant impact on the Company's financial statements upon its adoption on July 1, 2013.

Financial Instruments

Date of Recognition. The Company recognizes a financial asset or a financial liability in the statements of financial position when it becomes a party to the contractual provisions of the instrument. The Company determines the classification of its financial assets and liabilities on initial recognition and, where allowed and appropriate, re-evaluates this designation at each reporting date. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date accounting. Regular way purchases or sales of financial assets require delivery of assets within the time frame generally established by regulations in the market place.

Initial Recognition of Financial Instruments. Financial instruments are recognized initially at fair value, which is the fair value of the consideration given or received. The fair value of the consideration given or received is determined by reference to the transaction price or other market prices. If such market prices are not reliably determinable, the fair value of the consideration is estimated as the sum of all future cash payments or receipts, discounted using the prevailing market rate of interest for similar instruments with similar maturities. The initial measurement of financial instruments, except for those designated at fair value through profit and loss (FVPL), includes transaction cost.

Subsequent to initial recognition, the Company classifies its financial assets in the following categories: held-to-maturity (HTM) investments, available-for-sale (AFS) financial assets, FVPL financial assets, and loans and receivables. Financial liabilities are classified as financial liabilities at FVPL or other financial liabilities. The classification depends on the purpose for which the investments are acquired and whether they are quoted in an active market. As of June 30, 2010 and 2009, the Company has no financial assets and financial liabilities at FVPL, HTM investments and AFS financial assets.

Loans and Receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not designated as AFS financial assets or FVPL financial assets. Loans and receivables are carried at amortized cost, less impairment in value. Amortization is determined using the effective interest method. Gains and losses are recognized in income when the loans and receivables are derecognized or impaired, as well as through amortization process.

The Company's receivables and due from related parties are included in this category.

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from dates of acquisition and that are subject to an insignificant risk of change in value.

Financial Liabilities. This category pertains to financial liabilities that are not held for trading or not designated as at FVPL upon the inception of the liability. These include liabilities arising from operations or borrowings.

The financial liabilities are recognized initially at fair value and are subsequently carried at amortized cost, taking into account the impact of applying the effective interest method of amortization (or accretion) for any related premium, discount and any directly attributable transaction costs.

Included in this category are the Company's notes payable and accounts payable and accrued expenses that meet the above definition (other than liabilities covered by other PFRS, such as income tax payable and accrued retirement cost).

Derecognition of Financial Instruments. A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the financial asset have expired;
- the Company retains the right to receive cash flows from the financial asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the Company has transferred its rights to receive cash flows from the financial asset and either: (a) has transferred substantially all the risks and rewards of the financial asset; or (b) has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the financial asset.

When the Company has transferred its rights to receive cash flows from a financial asset and has neither transferred nor retained substantially all the risks and rewards of the financial asset nor transferred control of the financial asset, the financial asset is recognized to the extent of the Company's continuing involvement in the financial asset. Continuing involvement that takes the form of a guarantee over the transfer of the financial asset is measured at the lower of the original carrying amount of the financial asset and the maximum amount of consideration that the Company could be required to repay.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such modification is treated as a derecognition of the carrying value of the original liability and the recognition of a new liability at fair value, and any resulting difference is recognized in profit or loss.

Day 1 Profit. When the transaction price in a non-active market is different from the fair value of other observable current market transactions of the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a "Day 1 profit") in profit or loss. In cases when use is made of data which are not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the 'Day 1' profit amount.

Offsetting Financial Instruments. Financial assets and liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Capital Stock and Additional Paid-in Capital

Capital stock and additional paid-in capital are classified as equity. Incremental costs directly attributable to the issue of shares are recognized as a deduction from equity, net of any tax effect.

Inventories

Inventories are valued at the lower of cost and net realizable value. The cost of inventories includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in process, cost includes an appropriate share of production overheads based on normal operating capacity. Net realizable value of inventories, other than spare parts and supplies, is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses. For the spare parts and supplies, net realizable value is the estimated selling price less costs to sell.

Investments in Associates

Associates are those entities in which the Company has significant influence, but not control, over the financial and operating policies and which are neither subsidiaries nor joint ventures. The financial statements include the Company's share of the total recognized earnings and losses of associates on an equity accounted basis, from the date that significant influence commences until the date that significant influence ceases. The application of the equity method of accounting is based on the Company's beneficial interest in the net profits and net assets. Distributions received from the associates reduce the carrying amount of the investments. Income and expense resulting from transactions between the Company and the associates are eliminated to the extent of the interest in the associates. When the Company's share of losses exceeds the cost of the investment in an associate, the carrying amount of that interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

The Company's investment includes goodwill that represents the excess of acquisition cost of investment over the fair value of the net identifiable assets of the investee companies at the date of acquisition, net of impairment in value, if any.

The financial statements of the associates are prepared for the same reporting period as the Company's financial statements.

Bottles and Cases

Bottles and cases include returnable glass bottles and cases stated at deposit values and the excess of the acquisition costs of returnable bottles and cases over their deposit values. It also includes certain pallets acquired under finance lease. These assets are deferred and amortized using the straight-line method over their EUL (5 years for returnable bottles and 7 years for cases and pallets) determined principally by their actual historical breakage and trippage. An allowance is provided for excess, unusable and obsolete returnable bottles and cases based on the specific identification method.

Property, Plant and Equipment

Property, plant and equipment are carried at cost (which comprises its purchase price and any directly attributable costs in bringing the asset to working condition and location for its intended use) less accumulated depreciation, amortization and impairment losses, if any.

Subsequent costs that can be measured reliably are added to the carrying amount of the asset when it is probable that future economic benefits associated with the asset will flow to the Company. The cost of day-to-day servicing of an asset is recognized as expense in the period in which it is incurred.

Construction in progress represents plant and equipment under construction and is stated at cost. This includes cost of construction and other direct costs. Construction in progress is not depreciated until such time that the relevant assets are completed and put into operational use.

Depreciation commences once the assets become available for use. Depreciation is computed on a straight-line basis over the EUL of the assets. Leasehold improvements are amortized over the EUL of the improvements or the term of the lease, whichever is shorter.

The EUL and depreciation and amortization methods are reviewed at each reporting date to ensure that the period and depreciation and amortization methods are consistent with the expected pattern of economic benefits from those assets.

When an asset is disposed of, or is permanently withdrawn from use and no future economic benefits are expected from its disposal, the cost and accumulated depreciation, amortization and impairment losses, if any, are removed from the accounts and any resulting gain or loss arising from the retirement or disposal is recognized in profit or loss.

Impairment

Financial Assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate.

Individually, significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognized in profit or loss.

Reversal of an impairment loss previously recognized is recorded when the decrease can be objectively related to an event occurring after the impairment event. Such reversal is recognized in profit or loss. However, the increased carrying amount is only recognized to the extent it does not exceed what the amortized cost would have been had the impairment loss not been recognized.

Nonfinancial Assets

The carrying amounts of the Company's nonfinancial assets such as investments in associates, bottles and cases, and property, plant and equipment are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognized in profit or loss whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount.

The recoverable amount of a nonfinancial asset is the greater of the asset's fair value less costs to sell and its value in use. The fair value less costs to sell is the amount obtainable from the sale of the asset in an arm's length transaction. Value in use is the present value of the future cash flows expected to be delivered from an asset or cash-generating unit. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash flows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. Reversals of impairment are recognized in profit or loss.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be measured reliably. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and discounts. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing involvement with the goods. Transfer of risks and rewards of ownership coincide with the delivery of the products to the customers.

Cost and Expense Recognition

Costs and expenses are recognized in profit or loss as they are incurred.

Advertising and Marketing Costs

Advertising and marketing costs are charged to operations in the year such costs are incurred.

Finance Income and Expenses

Finance income comprises of interest income on bank deposits and money market placements, dividend income and foreign currency gains. Interest income is recognized in profit or loss as it accrues, using the effective interest method. Dividend income is recognized on the date that the Company's right to receive payment is established.

Finance expenses comprise interest expense on borrowings and foreign currency losses. All finance expenses are recognized in profit or loss as they accrue.

Leases

Leases in which a significant portion of the risks and rewards of ownership is transferred to the Company are classified as finance lease. Finance lease is capitalized at the inception of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments.

Subsequent to initial recognition, the capitalized asset is accounted for in accordance with the accounting policy applicable to that asset. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in profit or loss.

Leases which do not transfer to the Company substantially all the risks and rewards of ownership of the asset are classified as operating leases. Operating lease payments are recognized as an expense in profit or loss on a straight-line basis over the lease term. Associated costs such as maintenance and insurance are expensed as incurred.

Borrowing Costs

Borrowing costs are generally expensed as incurred. Borrowing costs are capitalized if they are directly attributable to the acquisition or construction of a qualifying asset. The capitalization of borrowing costs; (a) commences when the activities to prepare the assets are in progress and expenditures and borrowing costs are being incurred; (b) is suspended during extended periods in which active development, improvement and construction of the assets are interrupted; and (c) ceases when substantially all the activities necessary to prepare the assets are complete. These costs are amortized using the straight-line method over the EUL of the related property, plant and equipment to which it is capitalized. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss using the effective interest method.

Provisions and Contingencies

A provision is a liability of uncertain timing or amount. It is recognized when the Company has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

Provisions are revisited at each reporting date and adjusted to reflect the current best estimate. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pretax rate that reflects the current market assessment of the time value of money, and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Income Taxes

Income tax expense is composed of current and deferred tax. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income, in which case it is recognized in equity or in other comprehensive income.

Current Tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Deferred Tax

Deferred tax assets and liabilities are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes and the carryforward tax benefits of the net operating loss carryover (NOLCO) and the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT). The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying

amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences and the carryforward tax benefits of NOLCO and MCIT can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Retirement Plan

The Company has a funded, noncontributory defined benefit retirement plan covering substantially all of its regular and full time employees. Retirement costs are actuarially determined using the projected unit credit method which reflect services rendered by employees to the date of valuation and incorporates assumptions concerning employees' projected salaries. Actuarial gains and losses that exceed 10% of the greater of the present value of the Company's defined benefit obligation and the fair value of the plan assets in the prior period are amortized over the expected average working lives of the participating employees.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and actuarial gains and losses not recognized reduced by past service cost not yet recognized and the fair value of plan assets out of which the obligations are to be settled directly. If such aggregate is negative, the asset is measured at the lower of such aggregate or the aggregate of the cumulative unrecognized net actuarial losses and past service cost and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions of the plan (the asset ceiling test).

The Company recognizes past service cost as an expense on a straight-line basis over the average vesting period. The Company recognizes past service cost immediately to the extent that the benefits are already vested following the introduction of, or changes to, the plan.

Foreign Currency Transactions

The functional and presentation currency of the Company is the Philippine peso. Transactions in foreign currencies are recorded in Philippine peso based on the prevailing exchange rates at the date of the transactions. Foreign currency denominated monetary assets and liabilities are translated using the exchange rates prevailing at the reporting date. Exchange gains or losses arising from translation of foreign currency denominated items at rates different from those at which they were previously recorded are credited or charged to current operations.

Earnings Per Share (EPS)

Basic EPS is computed by dividing the net income by the weighted average number of common shares outstanding during the period, with retroactive adjustments for any stock dividends declared.

Diluted EPS is calculated by dividing the net income attributable to common shareholders by the weighted average number of common shares outstanding during the year adjusted for the effects of any dilutive potential common shares.

Dividends on Common Shares

Cash dividends on common shares are recognized as a liability and deducted from equity when approved by the BOD of the Company. Dividends for the year that are approved after the reporting date are dealt with as a nonadjusting event after the reporting date.

Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' operating results are reviewed regularly by the Company's Chief Executive Officer to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Events After the End of the Reporting Period

Post year-end events that provide additional information about the Company's financial position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the financial statements when material.

4. Financial Risk Management

The Company has exposure to the following risks from its use of financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risks, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements, mainly in Note 23 to the financial statements.

The main purpose of the Company's dealings in financial instruments is to fund its operations and capital expenditures.

The BOD has overall responsibility for the establishment and oversight of the Company's risk management framework. The BOD has established the Executive Committee (EXCOM), which is responsible for developing and monitoring the Company's risk management policies. The EXCOM identifies all issues affecting the operations of the Company and reports regularly to the BOD on its activities.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. All risks faced by the Company are incorporated in the annual operating budget. Mitigating strategies and procedures are also devised to address the risks that inevitably occur so as not to affect the Company's operations and forecasted results. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee performs oversight over financial management and internal control, specifically in the areas of managing credit, liquidity, market and other risks of the Company. The Audit Committee directly interfaces with the internal audit function, which undertakes reviews of risk management controls and procedures and ensures the integrity of internal control activities which affect the financial management system of the Company. The results of procedures performed by Internal Audit are reported to the Audit Committee.

Credit Risk

Credit risk represents the risk of loss the Company would incur if credit customers and counterparties fail to perform their contractual obligations. The Company's credit risk arises principally from the Company's trade receivables.

The Plant Credit Committees have established a credit policy under which each new customer is analyzed individually for creditworthiness before standard credit terms and conditions are granted. The Company's review includes the requirements of updated credit application documents, credit verifications through confirmation that there are no credit violations and that the account is not included in the negative list, and analyses of financial performance to ensure credit capacity. Credit limits are established for each customer, which serve as the maximum open amount at which they are allowed to purchase on credit, provided that credit terms and conditions are observed.

The credit limit and status of each customer's account are first checked before processing a credit transaction. Customers that fail to meet the Company's conditions in the credit checking process may transact with the Company only on cash basis.

It is the Company's policy to conduct an annual credit review through identification and summarization of under-performing customers and review and validation of credit violation reports. Based on the summary, the Plant Credit Committees may upgrade, downgrade, suspend and cancel credit lines.

Most of the Company's customers have been transacting with the Company for several years, and losses have occurred from time to time. Customer credit risks are monitored through annual credit reviews conducted on a per plant basis. Results of credit reviews are grouped and summarized according to credit characteristics, such as geographic location, aging profile and credit violations. Historically, credit violations have been attributable to bounced checks, and denied, fictitious or absconded credit accounts.

Collateral securities are required for credit limit applications that exceed certain thresholds (see Note 23). The Company has policies for acceptable collateral securities that may be presented upon submission of credit applications.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations as they fall due. The Company manages liquidity risk by forecasting projected cash flows and maintaining a balance between continuity of funding and flexibility. Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover daily operational and working capital requirements, as well as capital expenditures and debt service payments. Management closely monitors the Company's future and contingent obligations and sets up required cash reserves as necessary in accordance with internal requirements.

In addition, the Company has the following credit facilities:

- The total commitment as of June 30, 2010 and 2009 under the line of credit is P2.960 billion and P2.900 billion, respectively, of which the Company had drawn P283 million and P219 million, respectively, under letters of credit and short-term loans. All facilities under the omnibus line bear interest at floating rates consisting of a margin over current Philippine treasury rates; and
- P725 million and P580 million domestic bills purchased line, which were available as of June 30, 2010 and 2009, respectively.

Market Risk

Market risk is the risk that changes in market prices, such as commodity prices, foreign exchange rates, interest rates and other market prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company is subject to various market risks, including risks from changes in commodity prices, interest rates and currency exchange rates.

Commodity Prices

The risk from commodity price changes relates to the Company's ability to recover higher product costs through price increases to customers, which may be limited due to the competitive pricing environment that exists in the Philippine beverage market and the willingness of consumers to purchase the same volume of beverages at higher prices. The Company's most significant commodity exposure is to the Philippine sugar price.

The Company minimizes its exposure to risks in changes in commodity prices by entering into contracts with suppliers with duration ranging from six months to one year; with fixed volume commitment for the contract duration; and with stipulation for price adjustments depending on market prices. The Company has outstanding purchase commitment amounting to P1.330 billion as of June 30, 2010. The EXCOM considered the exposure to commodity price risk to be insignificant.

Interest Rate Risk

The Company's exposure to the risk for changes in market interest rate relates primarily to its debt obligations with variable interest rates. The Treasury Department, due to its competencies of managing debt obligations, transacts with creditors to ensure the most advantageous terms and to reduce exposure to risk of changes in market interest rate.

Foreign Currency Risk

The Company is exposed to foreign currency risk on purchases that are denominated in currencies other than the Philippine peso, mostly in U.S. dollar and EURO. In respect of monetary assets and liabilities held in currencies other than the Philippine peso, the Company ensures that its exposure is kept to an acceptable level, by maintaining short-term cash placements in U.S. dollar and buying foreign currencies at spot rates where necessary to address short-term imbalances. The EXCOM considered the exposure to foreign currency risk to be insignificant. Further, the Company does not hold any investment in foreign securities as of June 30, 2010 and 2009.

Capital Management

The Company's objectives when managing capital are to increase the value of shareholders' investment and maintain reasonable growth by applying free cash flow to selective investments that would further the Company's product and geographic diversification. The Company sets strategies with the objective of establishing a versatile and resourceful financial management and capital structure.

The Chief Financial Officer has overall responsibility for monitoring of capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the Company's external environment and the risks underlying the Company's business operations and industry.

The Company defines capital as total equity shown in the statements of financial position.

There were no changes in the Company's approach to capital management during the year and the Company is not subject to externally-imposed capital requirements.

5. Cash and Cash Equivalents

Cash and cash equivalents consist of:

	2010	2009
Cash on hand and in banks	P253,613	P210,308
Short-term investments	390,000	202,780
	P643,613	P413,088

Cash in banks earns interest at the respective bank deposit rates. Short-term investments are made for varying periods of up to three months depending on the immediate cash requirements of the Company and earn interest at the respective short-term investment rates.

The Company's exposures to interest rate risk and sensitivity analyses are disclosed in Note 23.

6. Receivables

Receivables consist of:

	Note	2010	2009
Trade	23	P1,124,733	P1,081,531
Others	23	59,176	56,731

At net realizable value		101,582	99,819
Total inventories at lower of cost or net realizable value		P825,467	P703,963

Under the terms of agreements covering liabilities under trust receipts, certain inventories have been released to the Company in trust for certain local banks. The Company is accountable to these banks for the trusted inventories (see Note 11).

Write-down of inventories to net realizable value amounted to P6 million and P24 million in 2010 and 2009, respectively, and is included as part of "Cost of Goods Sold" account in the statements of comprehensive income.

The Company's notes payable are secured by mortgage trust indentures on various assets, which include P284 million of inventories as of June 30, 2009.

8. Investments in Associates

Investments in associates consist of:

	Percentage (%) of Ownership		2010	2009
	2010	2009		
Acquisition cost:				
Nadeco Realty Corporation (NRC)	40%	40%	P232,508	P232,508

A substantial portion of the Company's property, plant and equipment and certain parcels of land owned by NRC with a total collateral value of P1.400 billion as of June 30, 2009 is mortgaged and placed in trust under two mortgage trust indentures to secure the Company's outstanding notes payable as of June 30, 2009 (see Notes 11 and 14).

Change in EUL of Marketing Equipment

During the fiscal year 2009, the Company reassessed the EUL of its marketing equipment. The said equipment, which is included as part of property, plant and equipment under "Machinery and Other Equipment" account, with previous EUL of five years is estimated to remain in operations for seven years from the date of purchase. The effect of change in depreciation expense is as follows:

	2009	2010	2011	2012	Beyond 2012
Increase (decrease) in depreciation expense	(P91,548)	(P70,604)	(P48,103)	(P19,312)	P229,567

The Company has ongoing definite corporate expansion projects or programs approved by the BOD. As a result of this expansion program, the Company spent for property, plant and equipment as well as bottles and shells amounting to P1.127 billion in 2010, P1.802 billion in 2009 and P1.981 billion in 2008, doubling the capital expenditures in previous years. To this date, the Company continues to invest in major capital expenditures in order to complete the remaining expansion projects lined up.

11. Notes Payable

This account represents short-term loans from various local banks which are payable in lump sum on their respective maturity dates up to November 14, 2009. Interest rates on the said loans are repriced monthly based on negotiated rates or prevailing market rates. The short-term loans are secured by mortgage trust indentures on inventories, bottles and cases, and real estate, which include certain restrictions and requirements. In fiscal year 2010, the said loans were fully settled.

Interest rates range from 6.00% to 6.50% for 2009 and 6.00% to 6.25% for 2008. Interest expense on notes payable recognized in profit or loss amounted to P3 million, P22 million and P36 million for 2010, 2009 and 2008, respectively.

Information about the Company's exposures to interest rate risk and liquidity risk is disclosed in Note 23.

12. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of:

	Note	2010	2009
Trade payables	7, 14	P1,468,984	P1,228,174
Accrued advertising and marketing		186,420	147,319
Accrued retirement cost - current	24	87,875	82,324

Other accrued expenses	27	591,751	506,584
		P2,412,870	P2,068,906

The Company's other accrued expenses consist mainly of accruals for salaries and wages, other employee benefits, utilities and other operating expenses, and current portion of obligations under finance lease.

The Company's exposure to liquidity risk related to trade and other payables is disclosed in Note 23.

13. Income Taxes

The components of the income tax expense are as follows:

	2010	2009	2008
Current tax expense and final taxes on interest income:			
Current period	P299,628	P324,832	P81,302
Prior period	-	-	(171,236)

Others	-	(41)	529
	P315,792	P381,739	P240,222

On May 24, 2005, Republic Act No. 9337 entitled "An Act Amending the National Internal Revenue Code, as Amended, with Salient Features" (Act), was passed into a law effective November 1, 2005. The Act includes the following significant revisions to the rules of taxation, among others:

- a. Reduction in the corporate income tax rate from 35% to 30% starting January 1, 2009 and onwards; and
- b. Reduction in the allowable deduction of interest expense from 42% to 33% of interest income subject to final tax beginning January 1, 2009.

14. Related Party Transactions

Related party relationship exists when one party has ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making the financial and operating decisions. Such relationship also exists between and/or among entities which are under common control with the reporting enterprises, or between and/or among the reporting enterprises and their key management personnel, directors, or its stockholders.

The Company has significant related party transactions which are summarized as follows:

- a. The Company has Exclusive Bottling Agreements with PepsiCo, Inc. ("PepsiCo"), stockholder, which has 29.49% beneficial interest in the Company, up to year 2017 and Pepsi Lipton International Limited ("Pepsi Lipton"), a joint venture of PepsiCo and Unilever N.V., up to year 2012. Under the agreements, the Company is authorized to bottle, sell and distribute Pepsi and Lipton beverage products in the Philippines. In addition, PepsiCo and Pepsi Lipton shall supply the Company with the main raw materials (concentrates) in the production of these beverage products and share in the funding of certain marketing programs. The agreements may be renewed by mutual agreement between the parties. Under the agreements, PepsiCo and Pepsi Lipton have the right to terminate the contracts under certain conditions, including failure to comply with terms and conditions of the appointment subject to written notice and rectification period, change of ownership control of the Company, change of ownership control of an entity which controls the Company, discontinuance of bottling beverages for 30 consecutive days, occurrence of certain events leading to the Company's insolvency or bankruptcy, change in management and control of the business, among others. Total net purchases from PepsiCo, amounted to P2.944 billion, P2.578 billion and P2.416 billion for the years ended June 30, 2010, 2009 and 2008, respectively. Total purchases from Pepsi Lipton for the years ended June 30, 2010, 2009 and 2008 amounted to P99 million, P81 million and P94 million, respectively.

The Company has a cooperative advertising and marketing program with PepsiCo and Pepsi Lipton that sets forth the agreed advertising and marketing activities and participation arrangement during the years covered by the bottling agreements. In certain instances, the Company pays for the said expenses and claims reimbursement from PepsiCo. For the years ended June 30, 2010, 2009 and 2008, the Company incurred marketing expenses amounting to P502 million, P521 million and P665 million, respectively. The Company's outstanding receivable from PepsiCo included under "Due from related parties" account in the statements of financial position, which are unsecured, noninterest-bearing and payable on demand amounted to P5 million and P27 million as of June 30, 2010 and 2009, respectively.

- b. On April 11, 2007, the Company entered into a Performance Agreement with PepsiCo to meet certain marketing and investment levels from 2007 to 2017, as required by the bottling agreement with PepsiCo. The agreement requires the Company to: (1) spend a specified percentage with a minimum amount for the beverage products; (2) make certain investments based on a minimum percentage of the Company's sales to expand the Company's manufacturing capacity; (3) invest in a minimum number of coolers per year to support distribution expansion; and (4) expand the Company's distribution capabilities in terms of the number of active routes, the number of new routes and the number of trucks used for distribution support.

- c. Certain parcels of land properties of NRC, an associate, were mortgaged to secure a portion of the Company's notes payable. The Company leases these parcels of land where some of its bottling plants are located. Lease expenses recognized amounted to P10 million, P10 million and P11 million for the years ended June 30, 2010, 2009 and 2008, respectively. The Company has advances to NRC amounting to P38 million which bear interest at a fixed rate of 10% per annum and which are unsecured and payable on demand. The Company also has outstanding net receivables from NRC, amounting to P119 million and P50 million as of June 30, 2010 and 2009, respectively, which are unsecured, noninterest-bearing and payable on demand. The advances and receivables are included under "Due from related parties" account in the statements of financial position.
- d. The Company has outstanding working capital advances to NHC, an associate, amounting to P3 million and P2 million as of June 30, 2010 and 2009, respectively, and which are unsecured, noninterest-bearing and payable on demand. As of June 30, 2010, 2009 and 2008, the Company has no dilutive equity instruments.

22. Segment Information

As discussed in Note 1, the Company is engaged in the manufacture, sales and distribution of CSD and NCB. The Company's main products under its CSD category include brands Pepsi-Cola, 7Up, Mountain Dew and Mirinda. The NCB brand category includes Gatorade, Tropicana/Twister, Lipton and the recently introduced Sting energy drink and Propel fitness water.

The Company operates under two (2) reportable operating segments, the CSD and NCB categories.

Analysis of financial information by operating segment is as follows:

* Segment result is the difference between net sales and segment expenses. Segment expenses are allocated based on the percentage of each reportable segment's net sales over total net sales.

** Segment assets and liabilities relate to balances as of June 30, 2010 and 2009.

There were no intersegment sales recognized between the two reportable segments.

The Company uses its assets and incurs liabilities to produce both carbonated soft drinks and non-carbonated beverages, hence, the assets and liabilities are not directly attributable to a segment and cannot be allocated into each segment on a reasonable basis.

Major Customer

The Company does not have any single external customer from which sales revenue generated amounted to 10% or more of the net sales.

23. Financial Instruments

Credit Risk

The carrying amounts of the financial assets represent the Company's maximum credit exposure. The maximum exposure to credit risk as at June 30 is as follows:

	2010	2009
Receivables - net	P1,075,420	P987,965
Cash in banks and cash equivalents	471,606	273,673
Due from related parties	165,085	116,454
	P1,712,111	P1,378,092

The aging of trade receivables is as follows:

	June 30, 2010		June 30, 2009	
	Gross Amount	Impairment	Gross Amount	Impairment
Current	P695,028	P -	P649,654	P -
Past due 1-30 days	271,680	-	229,850	-
Past due 31-60 days	43,540	-	51,808	-
More than 60 days	114,485	91,462	150,219	125,512
	P1,124,733	P91,462	P1,081,531	P125,512

Various collateral securities such as bank guarantees, time deposits, surety bonds, real estate and/or chattel mortgages are held by the Company for trade receivables exceeding certain amounts. The aggregate fair market value of these collateral securities amounted to P149 million as of June 30, 2010 and 2009.

As of June 30, 2010 and 2009, the Company assessed that the amounts due from related parties are not impaired and are collectible in full. In addition, other receivables are not impaired and are collectible, except for P17 million and P25 million for which an allowance was provided as of June 30, 2010 and 2009, respectively.

There are no significant concentrations of credit risk within the Company. Cash in banks and cash equivalents are of high grade quality. Of the total receivables and due from related parties as of June 30, 2010 and 2009 which are neither past due nor impaired, 99.2% is of high grade quality and the balance is of standard quality.

The credit qualities of financial assets are determined as follows:

- Cash in banks and cash equivalents are based on the credit standing or rating of the counterparty.
- Total receivables and due from related parties are based on a combination of credit standing or rating of the counterparty, historical experience and specific and collective credit risk assessment. High grade quality financial assets are those assessed as having minimal credit risk, otherwise they are of standard quality.

Liquidity Risk

The table summarizes the maturity profile of the Company's financial assets and financial liabilities based on contractual undiscounted amounts:

	As of June 30, 2010			
	Carrying amount	Contractual cash flow	One year or less	More than one year to five years
Financial assets:

	P2,096,900	P2,119,027	P2,027,550	P91,477

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Financial Assets Used for Managing Liquidity Risk

The Company considers expected cash flows from financial assets in assessing and managing liquidity risk. To manage its liquidity risk, the Company forecasts cash flows from operations for the next six months which will result in additional available cash resources and enable the Company to meet its expected cash outflow requirements.

Interest Rate Risk

The interest rates profile of the Company's interest-bearing financial instruments is as follows:

	2010	2009
Financial assets	P390,000	P222,553
Financial liabilities	-	(50,000)
	P390,000	P172,553

Sensitivity Analysis

A 2% increase in interest rates would have increased equity and profits for the years ended June 30, 2010, 2009 and 2008 by P6 million, P3 million and P4 million, respectively.

A 2% decrease in interest rates for the years ended June 30, 2010, 2009 and 2008 would have had the equal but opposite effect, on the basis that all other variables remain constant.

The interest rate risk's sensitivity analysis is based on interest rate variance that the Company considered to be reasonably possible at the end of the reporting date.

Fair Values

The fair values of the financial assets and liabilities approximate the carrying amounts due to the short-term nature of these financial instruments and the interest rates that they carry approximate interest rates for comparable instruments in the market.

24. Retirement Plan

The Company has a funded, noncontributory defined benefit retirement plan covering substantially all of its regular and full time employees. The Company has a Retirement Committee that sets the policies for the plan and has appointed two Philippine banks as trustees to manage the retirement fund pursuant to the plan. Annual cost is determined using the projected unit credit method. The Company's latest actuarial valuation date is June 30, 2010. The actuarial valuation is made on an annual basis.

The reconciliation of the assets and liabilities recognized in the statements of financial position is shown below:

	2010	2009
Present value of defined benefit obligation	P425,945	P382,590
Fair value of plan assets	214,844	175,708
Unfunded obligations	211,101	206,882
Unrecognized net actuarial gains	512	7,272
Accrued retirement cost	P211,613	P214,154

The current portion of accrued retirement cost included under "Accounts payable and accrued expense" account in the statements of financial position amounted to P88 million and P82 million as of June 30, 2010 and 2009, respectively, while the noncurrent portion included under "Other noncurrent liabilities" account in the statements of financial position amounted to P139 million and P131 million as of June 30, 2010 and 2009, respectively.

The components of retirement cost recognized in profit or loss are as follows:

	2010	2009	2008
Interest cost	P34,052	P32,742	P33,649
Current service cost	29,022	26,619	35,469
Expected return on plan assets	(9,614)	(20,905)	(15,387)
Past service cost	-	-	13,977
Amortization of unrecognized net actuarial gain	-	(3,665)	-
Net retirement cost	P53,460	P34,791	P67,708
Actual return on plan assets	P2,892	P12,363	P3,725

The Company's retirement cost is allocated between "Cost of Goods Sold" account in the statements of comprehensive income, which amounted to P5 million, P6 million and P14 million in 2010, 2009 and 2008, respectively, and "Operating Expenses" account in the statements of comprehensive income which amounted to P48 million, P28 million and P53 million in 2010, 2009 and 2008, respectively.

The changes in the present value of defined benefit obligation are as follows:

	2010	2009
Balance at beginning of year	P382,590	P333,886
Interest cost	34,052	32,742
Current service cost	29,022	26,619
Actuarial loss	38	65,694
Benefits paid	(19,757)	(76,351)
Balance at end of year	P425,945	P382,590

The movements in the fair value of plan assets are shown below:

	2010	2009
Balance at beginning of year	P175,708	P195,117
Contributions	56,000	48,000
Expected return	9,614	20,905
Net actuarial loss	(6,721)	(11,963)
Benefits paid	(19,757)	(76,351)
Balance at end of year	P214,844	P175,708

Principal actuarial assumptions used in determining retirement cost at reporting date (expressed as weighted averages) are as follows:

Annual rates	2010	2009
Discount rate	8.75%	9.25%
Expected rate of return on plan assets	4.50%	4.75%
Rate of future salary increase	5.00%	5.00%

The Company's plan assets consist of 99% investment in fixed income securities and 1% investments in shares of stocks both in 2010 and 2009.

The overall expected return on plan assets is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on the historical returns, without adjustments.

The historical information of the amounts is as follows:

	2010	2009	2008	2007	2006
Present value of the defined benefit obligation	P425,945	P382,590	P333,886	P366,031	P409,055
Fair value of plan assets	214,844	175,708	195,117	148,454	111,472
Deficit in the plan	(211,101)	(206,882)	(138,769)	(217,577)	(297,583)
Experience adjustments on plan liabilities loss (gain)	(20,179)	20,706	(3,603)	(42,167)	-
Experience adjustments on plan assets loss	(11,721)	(11,963)	(11,662)	(19,246)	-

The Company's expected contribution to the plan for the fiscal year 2011 is P88 million. Any future contribution to the plan is determined taking into account the cash flow and financial condition as of the date of intended date of contribution as well as other factors as the Company may consider relevant.

On February 1, 2008, the Company's initial public offering of 1,142,348,680 shares at P3.50 per share culminated with the listing and trading of its shares of stocks under the First Board of the Philippine Stock Exchange, Inc. Of the total shares offered, 380,782,893 shares pertain to the primary offering, which resulted in an increase in capital stock amounting to P57 million and additional paid-in capital of P1.2 billion, net of P138 million transaction cost that is accounted for as a reduction in equity.

The Company has approximately 657 and 638 holders of each class of common equity securities with the PCD Nominee Corporation (Filipino) and (Non-Filipino) considered as two holders as of June 30, 2010 and 2009, respectively, based on the number of accounts registered with the Stock Transfer Agent.

26. Retained Earnings

The BOD approved several declarations of cash dividends amounting to P554 million in 2010 and P369 million in 2009. There were no cash dividends declarations in 2008. Details of the declarations are as follows:

Date of Declaration	Dividend Per Share	Payable to Stockholders of Record as of	Date of Payment
September 30, 2008	0.10	October 15, 2008	November 7, 2008
September 30, 2009	0.15	October 15, 2009	October 29, 2009

On September 9, 2010, the BOD approved the declaration of cash dividend amounting to P369 million or P0.10 per share to stockholders of record as of September 24, 2010, payable on or before October 8, 2010.

The Company has dividend policy to declare dividends to stockholders of record, which are paid from unrestricted retained earnings. Any future dividends it pays will be at the discretion of the BOD after taking into account the Company's earnings, cash flow, financial position, capital and operating progress, and other factors as the BOD may consider relevant. Subject to the foregoing, the policy is to pay up to 50% of the annual net income as dividends. This policy may be subject to future revisions.

27. Commitments and Contingencies

a. Leases

• *Operating Lease Commitments*

The Company leases, from third parties and NRC, certain parcels of land where its bottling plants and warehouses are located for a period of one to twenty-five years and are renewable for another one to twenty-five years. None of these leases includes contingent rentals. Rent expense pertaining to these leased properties amounted to P69 million in 2010, P73 million in 2009, and P69 million in 2008 (see Notes 14, 16, 17 and 18).

Future minimum lease payments under such noncancelable operating leases are as follows:

	2010	2009	2008
Less than one year	P64,441	P63,803	P74,020
Between one and five years	201,375	204,332	239,534
More than five years	188,186	197,321	227,138
	P454,002	P465,456	P540,692

• *Finance Lease Commitments*

The Company has lease agreements covering certain pallets and power generation facilities in one of its plants for periods ranging from 5 to 10 years. Future minimum lease payments and their present value are as follows:

	2010		2009		Present value of minimum lease payments
	Future minimum lease payments	Interest	Future minimum lease payments	Interest	
Less than one year	P26,521	P538	P16,156	P877	P15,279
Between one and five years	84,558	15,274	91,477	22,003	69,474
More than five years	136,351	5,760	-	-	-
	P247,430	P21,572	P107,633	P22,880	P84,753

The current portion of the obligation under finance lease which is included under "Accounts payable and accrued expense" account in the statements of financial position amounted to P27 million and P16 million as of June 30, 2010 and 2009, respectively, while the noncurrent portion which is included under "Other noncurrent liabilities" account in the statements of financial position amounted to P69 million as of June 30, 2010 and 2009.

The lease agreement on the power generation facilities has not yet commenced and the Company is expecting to use the said facilities next fiscal year, thus, no assets and liabilities have been recognized as of June 30, 2010.

Interest rates are fixed at the contract date. The average effective interest rate contracted approximates 6.0% to 6.5% per annum. There were no unguaranteed residual values of assets leased under finance lease agreements as of June 30, 2010 and 2009.

- b. The Company is a party to a number of lawsuits and claims relating to tax, labor and other issues arising out of the normal course of its business. Management and its tax and legal counsels believe that the outcome of these lawsuits and claims will not materially affect the financial position, financial performance or liquidity of the Company.

PART I – BUSINESS AND GENERAL INFORMATION

ITEM 1. BUSINESS

(1) Business Development

a. Form and Date of Organization

The Company was registered with the Philippine Securities and Exchange Commission on March 8, 1989, primarily to engage in manufacturing, sales and distribution of carbonated soft-drinks and non-carbonated beverages to retail, wholesale, restaurants and bar trades. The registered office address and principal place of business of the Company is Km. 29, National Road, Tunasan, Muntinlupa City.

b. Bankruptcy, Receivership or Similar Proceedings

The Company and its associate are not involved in any bankruptcy, receivership or similar proceedings.

c. Material Reclassification, Merger, Consolidation or Purchase or Sale of a Significant Amount of Assets (not ordinary) over the past three years

The Company and its associate have not made any material reclassifications nor entered into a merger, consolidation or purchase or sale of significant amount of assets (not ordinary) in the past three years.

(2) Business of Issue

a. Principal products

The Company is a licensed bottler of PepsiCo and Pepsi Lipton beverages in the Philippines. It manufactures a range of carbonated soft drinks and non-carbonated beverages that includes well-known brands Pepsi-Cola, 7Up, Mountain Dew, Mirinda, Gatorade, Tropicana/Twister, Lipton, Sting and Propel.

Net Sales	2010	2009	2008
Carbonated soft drinks	₱ 11,469	₱ 10,594	₱ 10,405
Non-carbonated beverages	4,660	3,638	2,576
Total	₱ 16,129	₱ 14,232	₱ 12,981

Segment result*	2010	2009	2008
Carbonated soft drinks	₱ 2,994	₱ 3,118	₱ 3,292
Non-carbonated beverages	1,217	1,071	815
Total	₱ 4,211	₱ 4,189	₱ 4,107

* Segment result is the difference between net sales and segment expenses. Segment expenses are allocated based on the percentage of each reportable segment's net sales over the total net sales.

b. Foreign sales

Foreign sales represent 0.28%, 0.26%, and 0.40% of total net sales in 2010, 2009, and 2008 respectively.

c. Distribution methods of the products

The Company's sales volumes depend on the reach of its distribution network. It increases the reach of distribution system by adding routes and increasing penetration by adding outlets on existing routes that currently do not stock its products. It relies on a number of channels to reach retail outlets, including direct sales, distributors and wholesalers.

The backbone of the distribution system is what is referred to as "Entrepreneurial Distribution System," which consists of independent contractors who service one or more sales "routes," usually by truck, selling directly to retail outlets and collecting empty returnable bottles (RGBs).

It also employs its own sales force, which principally sells to what is referred to as the "modern trade" channel, consisting largely of supermarkets and restaurant and convenience store chains. Most of these sales are credit sales that are fulfilled by third party distributors. In addition, it sells products to third party wholesalers and distributors, which sell them to retail outlets.

An important aspect of the distribution system is the infrastructure-intensive process of selling and delivering RGB products to many thousands of small retailers, including sari-sari stores and carinderias. The efforts to increase the reach of our distribution network require significant investments in distribution infrastructure such as additional trucks, refrigeration equipment, warehouse space and a larger "float" of glass bottles and plastic shells, as well as higher costs for additional sales and distribution staff.

d. Publicly-announced new product

The Company has no publicly-announced new products that are in the planning or prototype stage.

e. Competition

The beverage market in the Philippines is highly competitive. Competition is primarily through advertising and marketing programs that create brand awareness, price and price promotions, new product development, distribution and availability, packaging and customer goodwill.

Competitors in the carbonated soft drinks (CSD) market are The Coca-Cola Company, Asiatech Refreshments Corporation, and Asia Brewery Incorporated. The substantial investment in multiple plants, distribution infrastructure and systems and the float of RGBs and plastic shells required to operate a nationwide beverage business using RGBs represent a significant barrier to potential competitors in widening their reach.

The market for non-carbonated beverages (NCB) is more fragmented. Major competitors in this market are The Coca-Cola Company, San Miguel Corporation, Universal Robina Corporation, Zesto Corporation, among others. In recent years, the market has been relatively fluid, with frequent product launches and shifting consumer preferences. These trends are expected to continue.

f. Sources and availability of raw materials

Over half of total costs comprise purchases of raw materials. Largest purchases are sugar and beverage concentrates. The Company purchases all sugar requirements domestically because of import restrictions imposed by the Philippine government. It purchases beverage concentrates from PepsiCo, Inc. ("PepsiCo") and Pepsi Lipton International Limited ("Pepsi Lipton") at prices that are fixed as a percentage of the wholesale prices charged for the finished products, subject to a price floor in U.S. dollars.

Another substantial cost is packaging. The major components of this expense are purchases of PET pre-forms, which are converted into PET bottles at the plants, non-reusable glass bottles, aluminum cans and closures. It also makes regular purchases of RGBs to maintain float at appropriate levels. Purchases of each of these materials are from suppliers based in the Philippines and in other parts of Asia, usually under short term, fixed price contracts.

g. Customers

The Company has a broad customer base nationwide. Its customers include supermarkets, convenience stores, bars, sari-sari stores and carinderias.

h. Transactions with and/or Dependence on Related Parties

Please refer to Item 13 of this report.

i. Patents, trademarks, copyrights, licenses, franchises, concessions, and royalty agreements

The Company does not own any intellectual property that is material to the business. Under the Exclusive Bottling Agreements, the Company is authorized to use brands and the associated trademarks owned by PepsiCo, Inc., and, in the case of the Lipton brand and trademarks, Unilever N.V. Trademark licenses are registered with the Philippine Intellectual Property Office. Certificates of Registration filed after January 1998 are effective for a period of 10 years from the registration date unless sooner cancelled, while those filed before January 1998 are effective for 20 years from the registration date. The table below summarizes most of the current Certificates of Registration as well as pending applications for Lipton Iced Tea.

Lipton Splash design	December 18, 2003	May 28, 2017
Lipton Ice Tea Logo in Color	November 17, 2006	Pending application

The Company produces its products under licenses from PepsiCo and Pepsi Lipton and depends upon them to provide concentrates and access to new products. Thus, if the Exclusive Bottling Agreements are suspended, terminated or not renewed for any reason, it would have a material adverse effect on the business and financial results.

Refer to Item 13 of this report for details on transactions with PepsiCo and Pepsi Lipton.

j. Government approvals of principal products

As a producer of beverages for human consumption, the Company is subject to the regulation by the Bureau of Food and Drugs (BFAD) of the Philippines, which is the policy formulation and monitoring arm of the Department of Health of the Philippines on matters pertaining to food and the formulation of rules, regulations, standards and minimum guidelines on the safety and quality of food and food products as well as the branding and labeling requirements for these products.

It is the Company's policy to register all locally-produced products for local market distribution. Each of the plants has a valid and current License to Operate as a Food Manufacturer of Non-Alcoholic Beverages from BFAD. These licenses are renewed annually in accordance with applicable regulations. Any finding and gaps found during the regulatory audit and inspection are thoroughly discussed with BFAD inspectors and compliance commitments are re-issued. There are no pending findings of gaps that are material or that may materially affect the operation of each plant or all the plants as a whole.

The Company is also registered as a Distributor and Exporter of finished products. It has been recognized by BFAD as a Good Manufacturing Practice Certified Plant.

k. Effect of existing or probable governmental regulations on the business

The Company's production facilities are subject to environmental regulation under a variety of national and local laws and regulations, which, in particular, control the emissions of air pollutants, water, and noise. It is regulated by two major government agencies, namely, the Department of Environment and Natural Resources (DENR) and the Laguna Lake Development Authority (LLDA).

The Company is compliant with environmental laws and regulations, such as the wastewater treatment plants as required by the Department of Environment and Natural Resources and Laguna Lake Development Authority.

While the foregoing agencies actively monitor the Company's compliance with environmental regulations as well as investigate complaints brought by the public, it is required to police its own compliance and prevent any incident that could expose the Company to fines, civil or even criminal sanctions, considerable capital and other costs and expense for refurbishing or upgrading environmental compliance system and resources, third party liability such as clean-ups, injury to communities and individuals, including, loss of life.

l. Research and development

The research and development costs amounted to ₱317,460, ₱233,293, and ₱177,500 in fiscal years 2010, 2009, and 2008, respectively.

m. Costs and effects of compliance with environmental laws

Compliance with all applicable environmental laws and regulations, such as the Environmental Impact Statement System, the Pollution Control Law, the Laguna Lake Development Authority Act of 1966, the Clean Air Act, and the Solid Waste Management Act has not had, and in the Company's opinion, is not expected to have a material effect on the capital expenditures, earnings or competitive position. Annually, it invests about ₱39 million and ₱33 million in wastewater treatment and air pollution abatement, respectively, in its facilities.

n. Employees

As of June 30, 2010, the Company employs approximately 2,560 people. In addition, it generally deploys between 1,500 and 1,950 casual employees working in the business at any time. It contracts with DOLE accredited third party manpower and services firms for the supply of casual staff. The number of casual employees it requires varies seasonally, with generally higher numbers during peak months of March through June. As of June 30, 2010, it had 1,936 casual employees.

All of the permanent production employees at the bottling plants and sales offices are represented by a union. The Company is a party to 14 collective bargaining agreements, with separate agreements for the sales and the non-sales forces in some cases. The collective bargaining agreements contain economic and non-economic provisions (such as salary increase and performance incentive, sale commission, laundry allowance, per diem, bereavement assistance, union leave, calamity loan, and assistance to employees' cooperative), which generally have a term of three years and remain binding on the successors-in-interest of the parties, while the representation aspect is valid for five years.

The Company believes that the relationship with both unionized and non-unionized employees is healthy. It has not experienced any work stoppages due to industrial disputes since 1999.

It places significant emphasis on training personnel to increase their skill levels, ensure consistent application of procedures and to instill an appreciation of corporate values. It operates "Pepsi University," a full-time training facility consisting of four classrooms. It has adopted a compensation policy which it believes to be competitive with industry standards in the Philippines. Salaries and benefits are reviewed periodically and adjusted to retain current employees and attract new employees. Performance is reviewed annually and employees are rewarded based on the attainment of pre-defined objectives.

The Company has a funded, noncontributory defined benefit retirement plan covering substantially all of its regular and full time employees. The Company has a Retirement Committee that sets the policies for the plan and has appointed two Philippine banks as trustees to manage the retirement fund pursuant to the plan. Annual cost is determined using the projected unit credit method.

o. Major Risks

Sales and profitability are affected by the overall performance of the Philippine economy, the natural seasonality of sales, the competitive environment of the beverage market in the Philippines, as well as changes in cost structures, among other factors.

Sales volume are also affected by the weather, generally being higher in the hot, dry months from March through June and lower during the wetter monsoon months of July through October. In addition, the Philippines is exposed to risk of typhoons during the monsoon period. Typhoons usually result in substantially reduced sales in the affected area, and have, in the past, interrupted production at the plants in affected areas. While these factors lead to a natural seasonality in sales, unseasonable weather could also significantly affect sales and profitability compared to previous comparable periods. Sales during the Christmas/New Year holiday period in late December tend to be higher as well.

The CSD and NCB markets are both highly competitive. The actions of competitors as well as the Company's own continuous efforts on pricing, marketing, promotions, and new product development affect sales. Some of the smaller competitors have lower cost bases than the Corporation and price their products lower than ours. Thus, in addition to the cost of producing and distributing our beverages, sales prices are greatly affected by the availability and price of competing brands in the market.

All of the Company's sales are denominated in Philippine pesos. However, some of the significant costs, such as purchases of packaging materials, are denominated in United States dollars. Some of the other costs, which are incurred in Philippine pesos, can also be affected by fluctuations in the exchange rate between the Philippine peso and United States dollars. As a result, movements in the exchange rate between Philippine pesos and other currencies can have a significant effect on the results of operations.

The business requires a significant supply of raw materials and energy. The cost and supply of these materials could be adversely affected by changes in the world market prices on sugar, crude oil, aluminum, tin, PET resins, among others. Although direct purchases of fuel are relatively small as a proportion of total costs, the Company is exposed to fluctuations in the price of oil through the dependence on freight and delivery services. Changes in materials prices generally affect the competitors as well.

Margins differ between beverage products and package types and sizes. Excluding packaging, production costs are similar across the range of carbonated beverages, but vary between non-carbonated beverages. Packaging costs vary, with RGBs being less expensive than PET, aluminum cans or non-returnable glass. The incremental cost of producing larger-sized serves in the same package type is proportionately lower than the increased volume, creating opportunities to achieve higher margins where customers perceive value in terms of volume.

As a result of the factors discussed above, the margins the Company earns on the products can be substantially different, and the margins can change in both absolute and relative terms from period to period. While the Company attempts to adjust its product and package mix to maximize profitability, changes in consumer demand and the competitive landscape can have a significant impact on mix and therefore profitability.

The Company is also subject to credit risk, liquidity risk and various market risks, including risks from changes in commodity prices, interest rates and currency exchange rates (refer to Notes 4 and 23 of the 2010 Audited Financial Statements for discussion on Financial Risk Management).

The Company is not aware of any events that will trigger direct or contingent financial obligation that is material to the Company, including any default or acceleration of an obligation. To the Company's knowledge, there are no material off-balance sheet transactions, arrangement, obligations (including contingent obligations), and other relationship of the Company with unconsolidated entities or other persons created during the reporting period.

ITEM 2. PROPERTIES

As a foreign-owned company, the Company is not permitted to own land in the Philippines and has no intention to acquire real estate property. Hence, it leases the land on which the bottling plants, warehouses and sales offices are located.

The Company leases certain parcels of land where its bottling plants and warehouses are located from third parties and Nadeco Realty Corporation for a period of one to 25 years and are renewable for another one to 25 years (refer to Note 27 of the 2010 Audited Financial Statements for further information on the leases).

Other than the buildings, leasehold improvements, machinery and equipment, fixtures and appurtenances disclosed in Note 10 to the 2010 Audited Financial Statements, and the investments in shares of stocks disclosed in Note 8 to the 2010 Audited Financial Statements, the Company does not hold significant properties.

Refer to Notes 7 (Inventories), 9 (Bottles and Cases), 10 (Property, Plant and Equipment), and 11 (Notes Payables) to the 2010 Audited Financial Statements for details on mortgage, lien or encumbrances over the properties of the Company and its associate.

ITEM 3. LEGAL PROCEEDINGS

From time to time, the Company becomes a party to litigation in the ordinary course of its business. The majority of the cases in which the Company is a party are cases it files to recover debts in relation to unpaid receivables by trade partners or in relation to cash or route shortages, private criminal prosecutions that it brings (generally for low value offenses such as theft of product or distribution equipment, fraud, and bouncing checks), labor cases for alleged illegal dismissal (which are usually accompanied by demands for reinstatement in the Company without loss of seniority rights, and payment of back wages), and consumer cases brought against the Company involving allegations of defective products.

As a result of a promotion in 1992, civil cases were filed against the Company in which thousands of individuals claimed to hold numbered bottle crowns that entitled them to a cash prize. The Philippine Supreme Court has consistently held in at least 7 final and executory decisions in the last 5 years that the Company is not liable to pay the amounts claimed. In the most recent of these decisions, the Supreme Court dismissed a similar claim, reiterating that it is bound by its pronouncement in a number of cases involving this promotion. By virtue of the precedential effect of the decided cases, the Company expects the remaining cases to be dismissed in due course.

The Company does not believe that the litigation in which the Company is currently involved or which is presently pending or threatened is material, either individually or in the aggregate. The Company has not been involved in any bankruptcy, receivership or other similar proceedings.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There was no matter submitted during the 4th quarter of the fiscal year covered by this report to a vote of security holders, through solicitation of proxies or otherwise.

PART III – FINANCIAL INFORMATION

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

RESULTS OF OPERATIONS - fiscal 2010 versus 2009

The Company delivered a strong, milestone year in terms of top-line sales. It continued its focus on driving the growing NCB market and maintaining CSD share through continuing the strategic agenda to drive affordability and availability across the Philippines. Net sales increased by 13.3% from 2009 and have nearly doubled from five years ago, an impressive feat given the aggressive competition and marketplace challenges.

The sales surge was led by NCBs, posting an impressive 28% in revenue growth. With this development, NCB share in the revenue mix grew from 26% to 29%, which is in line with the strategy to fully embrace the health and wellness trend. CSDs also presented a strong 8% in revenue growth, surpassing the last 7 years growth in this market. The strong CSD sales were buoyed by the national elections and the hot weather.

The impressive sales numbers however were tempered by rising sugar prices, which increased by 22%. In 2009, sugar prices rose to a 35-year high as rain damaged crops in Brazil, the largest producer, and dry weather curbed output in India, the second-largest supplier. As supply slowed and demand continued to rise, the inventory reserves of many countries, including the Philippines, became depleted resulting to higher sugar prices and significantly affecting sugar-dependent food and beverage industries.

Despite this acute development, gross profit remained steady at P4.21 billion compared to last year's gross profit of P4.19 billion, while operating income slipped to P996 million compared to last year's figure of P1.1 billion. EBITDA likewise remained steady at P2.2 billion versus year ago figure of P2.2 billion, while EBIT dropped to P1.04 billion versus year ago figure of P1.2 billion, weighed down by higher depreciation and amortization resulting from recent expansion programs.

Management was able to mitigate the rise in sugar prices in part by continuing to successfully control and reduce operating expenses from 24% and 21% of sales in 2008 and 2009, respectively, to 20% in 2010. Notable reductions are in the area of selling and distribution expenses (from 13% of sales in 2009 to 12% in 2010) where management's rationalization and re-engineering programs have managed to deliver superior service at much lower cost.

Marketing expenses as a percentage of sales were likewise lower (from 4% of sales in 2009 to 3% of sales in 2010). Focused marketing anchored on strategically targeted programs resulted in sales

increases amidst modest marketing spending. General administrative expenses remained steady at 4% of sales in 2010 and 2009, showing a firm-wide effort to manage the controllable variables in the income statement. The Company's continued efforts to drive top-line growth, while maintaining tight cost control will be the sustaining force in the years to come.

RESULTS OF OPERATIONS - fiscal 2009 versus 2008

Fiscal year 2009 registered a healthy 5% growth in net income and 19% growth in operating income over year ago level. It maintained profitability, with EBITDA margin of 16%, EBIT margin of 8%, and Net Income margin of 6%. The corresponding numbers for fiscal year 2008 are 15%, 8% and 6%, respectively.

Net sales growth of 9.6% is driven mainly by growth in NCB brands such as Sting, Tropicana and Gatorade as well as CSD growth in flavors.

In line with its strategy of aggressively tapping the healthy growth prospects for NCB, with health and wellness as its platform and growing the business by targeting the broad CD mass market that still constitutes the majority of the Philippine population, the Company continues to expand its offering of beverage products to make NCB available to more Filipinos at affordable prices and convenient packaging. The Company has since completed the expansion projects in Cebu, San Fernando and Iloilo which made it possible to offer its NCB products in 8oz returnable glass bottles (RGB) all over the country.

The Company launched new product innovations such as Tropicana Summer Blends and Gatorade Tiger and came out with high impact new packaging formats such as Pepsi Max black long neck 500 ml PET, among other things in order to create buzz and bring excitement to the consumers as well as use packaging to communicate and have a dialogue with consumers. It also launched the highly successful Mountain Dew 750 ml RB to leverage the brand's strong pull in the trade.

The intensified competition from a crowded CSD market along with the challenge posed by low-priced brand compelled the Company to drop its prices. To counteract the adverse effect of a low price, commoditized cola segment on its profitability, the Company continues to maintain a healthy revenue mix resulting to a 3% higher average LRB prices.

The weak economy, high inflation and stiff competition caused undue pressure on revenues and costs. Gross profit margin dropped from 31.6% in 2008 to 28.4% in 2009 due to increased cost of inputs such as sugar, CO₂, packaging materials, fuel, etc during the 1st half of the fiscal year as well as depressed CSD pricing brought about by intense competition. In spite of lower gross profit margin and higher manufacturing depreciation, gross profit grew by 1.9% due to volume growth.

On the other hand, operating income grew by 18.8% and operating income margin registered an improvement from 7.4% in 2008 to 8.0% in 2009 due to effective cost management. However, an increase in effective tax rate from 24.0% in 2008 to 32.3% in 2009 caused the net income margin to drop from 5.9% to 5.6%.

Operating expenses as a ratio to net sales decreased from 24.2% to 21.4% mainly due to decrease in marketing expenses by 21.7%. The decrease in marketing expenses as a percentage of net sales dropped from 5.1% to 3.7% and is due to targeted and prudent marketing spending program initiated by management in 2009.

As a percentage of net sales, selling and distribution (S&D) expenses decreased from 14.1% to 13.4%. In terms of absolute amount, S&D expenses increased by 4% as compared to a year ago level. The increase can be attributed mainly to volume growth as well as the Company's continued investment in its distribution infrastructure such as RGBs, plastic cases and in-store refrigeration equipment. These increases in S&D cost were offset by the savings on personnel, rental and utilities as a result of the

rationalization of the number of its sales office as well as the effect of change in the estimated useful life of its marketing equipment from 5 years to 7 years.

General & administrative expenses decreased by 6% vs. year ago level. General and administrative expenses decreased from 5.0% to 4.3% of net sales. Significant cost savings were realized due to prudent cost management.

FINANCIAL CONDITION AND LIQUIDITY

For the fiscal year 2010, the Company has strong operating cash flows, i.e. net cash provided by operating activities are substantially more than the net cash used in investing activities.

The Company's operations are cash intensive. This capability to generate cash is one of its greatest strengths. With its liquidity, the Company has substantial financial flexibility in varying operating policy in response to market demands, in meeting capital expenditures through internally generated funds and in providing the Company with a strong financial condition that gives it ready access to financing alternatives (refer to Note 4 to the 2010 Audited Financial Statements for a detailed discussion on the Company's revolving credit facilities as of June 30, 2010).

Credit sales over the past three years have changed from 62% of total sales in 2008 and 68% in 2009 to 64% in 2010. This reflects a shift from a direct distribution mode to a more efficient model of fostering partnership with distributors and multi-route Entrepreneurial Distribution System contractors as well as increase in Modern Trade business. Liquidity has remained healthy. Collection period improved from 30 days in 2008 and 27 days in 2009 to just 26 days in 2010. Inventory days have decreased from 12 days in 2008 and 10 days in 2009 to just 8 days in 2010, reflecting a more efficient inventory and production management. Trade payable days have remained at manageable levels.

Increase in current assets from ₱2,293 million as of June 2009 to ₱2,758 million as of June 2010 were due to the increase in cash and cash equivalents by ₱231 million, inventory by ₱122 million, receivables by ₱87 million, and due to related parties by ₱49 million. The increase in cash is due to the improved working capital management while the increases in receivables and inventories were in line with increase in sales volume.

Non-current assets decreased from ₱6,269 million as of June 2009 to ₱6,208 million as of June 2010 due to the decreased amount of Bottles and Cases (net of amortization) by ₱116 million as well as decrease in Other Non-Current assets by ₱35 million. These decreases were partially offset by the increase in Plant, Property & Equipment by ₱88 million as well as by the increase in Investments in Associates by ₱2 million. The increase in Plant, Property & Equipment, on the other hand, is largely due to the continued expansion of plant capacity.

Increase in current liabilities from ₱2,275 million as of June 2009 to ₱2,472 million as of June 2010 is mainly due to increase in Accounts Payable & Accrued Expenses by ₱344 million. The increase in Accounts Payable & Accrued Expenses is partially offset by the decreased amounts from Income Tax Payable by ₱98 million and Notes Payable by ₱50 million.

Non-Current Liabilities increased from ₱577 million as of June 2009 to ₱599 million as of June 2010 due to the increase in Deferred Tax Liabilities by ₱16 million and increase in Other Non-Current Liabilities by ₱6 million.

Total assets increased from ₱8,562 million as of June 2009 to ₱8,986 million as of June 2010 mainly due to the significant increase in current assets described above. Total liabilities increased from ₱2,852 million as of June 2009 to ₱3,071 million as of June 2010 mainly due to similar factors stated in increase in current liabilities. Total equity increased from ₱5,710 million to ₱5,894 million on account of net income of ₱738 million for the year less dividends of ₱554 million paid during the year.

MATERIAL COMMITMENTS FOR CAPITAL EXPENDITURES

Historically, the Company has sourced funding for capital expenditures essential to product innovation initiatives and maintaining operational capabilities through internally-generated funds and long-term borrowings. In recent years, it has met these requirements substantially out of operating cash flow, and has incurred only short-term debt to assist with temporary liquidity requirements. In January 2008, it had embarked on an IPO, with net proceeds of approximately P1.2 billion, to fund the expansion of NCB business. As of June 2010, the IPO proceeds were fully utilized. The Company has completed the expansion projects of Cebu, San Fernando and Iloilo. Capital expenditure for fiscal year 2010 amounted to P1.127 billion.

FACTORS THAT MAY IMPACT COMPANY'S OPERATIONS / SEASONALITY ASPECTS

Refer to Item 1 (2) (a) on discussion of Major Risks.

SIGNIFICANT ELEMENTS OF INCOME OR LOSS THAT DID NOT ARISE FROM CONTINUING OPERATIONS

There was no income or losses arising from discontinued operations.

ITEM 7. FINANCIAL STATEMENTS

Please see Exhibit I hereof for the 2010 Audited Financial Statements.

ITEM 8. INFORMATION ON INDEPENDENT ACCOUNTANT

The Company has engaged the services of an independent Certified Public Accountant (CPA) to conduct an audit and provide objective assurance on the reasonableness of the financial statements and relevant disclosures. The independent CPA is responsible solely to the Board of Directors.

The appointment of the independent CPA is submitted to the Audit Committee, the Board of Directors and shareholders for approval. The representatives of the independent CPA are expected to be present during the Annual Stockholders' Meeting and have the opportunity to make a statement on the Company's financial statements and results of operations, as required or appropriate. They are also available to reply to queries during the said meeting. Upon request, the independent CPA can also be asked to attend meetings of the Audit Committee and the Board, to make presentations and reply to inquiries on matters relating to the Company's financial statements.

The Company has appointed Manabat Sanagustin & Co. as its independent CPA for the fiscal year 2010. Aside from audit services, it has also engaged Manabat Sanagustin & Co. to perform tax assurance services and render opinion on projects relating to the interpretation of tax laws, regulations and rulings.

Aggregate fees billed by the independent CPA for professional services in relation to: (i) the audit of the annual financial statements and services in connection with (a) statutory and regulatory filings, and (b) the initial public offering of the Company's shares; and (ii) tax accounting, compliance, advice, planning and any other form of tax services are summarized as follows:

	FY 2010	FY 2009	FY 2008
Statutory audit fees	₱ 3.68 million	₱ 3.50 million	₱ 3.40 million
IPO-related audit fees	-	-	15.70 million
Tax advice fees	-	0.33 million	0.25 million
Total	₱ 3.68 million	₱ 3.83 million	₱ 19.35 million

The Audit Committee of the Company reviews and approves the audit plan and scope of work for the above services and ensures that the rates are competitive as compared to the fees charged by other equally competent external auditors performing similar services.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There has been no change in the independent auditing firm or handling partner or disagreements with the independent CPA on matters relating to the application and interpretations of accounting principles or practices, tax laws and regulations, financial statement disclosures or audit scope and procedures during the three (3) most recent fiscal years.

¹ PCD Nominee Corporation is the registered owner of shares beneficially owned by participants in the Philippine Central Depository, Inc. (PCD), a private company organized to implement an automated book entry system of handling securities transactions in the Philippines. While PCD Nominee Corporation is the registered owner of the shares in the Corporation's books, the beneficial ownership of such shares pertains to PCD participants (brokers) and/or their non-Filipino clients, whether individuals or corporations, in whose names these shares are recorded in their respective books. Under PCD procedures, when an issuer of a PCD-eligible issue will hold a stockholders' meeting, PCD will execute a pro-forma proxy in favor of the participants for the total number of shares in their respective principal securities account, as well as for the total number of shares in their client securities account. For shares held in the principal securities account, the participant is appointed as proxy with full voting rights and powers as registered owner of such shares. For shares held in the client securities account, the participant is appointed as proxy with the obligation to constitute a sub-proxy in favor of its clients with full voting and other rights for the number of shares beneficially owned by them.

² Quaker Global Investments B.V. ("QGI") is a corporation duly organized and existing under and by virtue of the laws of the Netherlands with principal office at Zonnebaan 35, 3542 EB Utrecht, The Netherlands. QGI, through its Board of Directors, will designate Mr. Sunil D'Souza to vote its shares of stock in the Corporation.

³ Hong Way Holdings, Inc. ("HWHI") is a corporation duly organized and existing under and by virtue of the laws of the Philippines with offices at the 30th Floor, Burgundy Corporate Tower, 252 Sen. Gil Puyat Avenue, Makati City. HWHI, through its Board of Directors, usually designates Mr. Micky Yong to vote its shares of stock in the Corporation.

⁴ Same as footnote 2 above except that the beneficial ownership of shares registered in the name of PCD Nominee Corporation pertains to PCD participants (brokers) and/or their Filipino clients, whether individuals or corporations, in whose names these shares are recorded in their respective books.

⁵ Guoco Assets (Philippines), Inc. ("GAPI") is a corporation duly organized and existing under and by virtue of the laws of the Philippines with principal office at the 30th Floor, Burgundy Corporate Tower, 252 Sen. Gil Puyat Avenue, Makati City. GAPI, through its Board of Directors, usually designates Mr. Micky Yong to vote its shares of stock in the Corporation.

Changes in Control

The Company is not aware of any voting trust agreement or any other similar agreement which may result in a change in control. No change in control has occurred since the beginning of its last fiscal year.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Refer to Note 14 to the 2010 Audited Financial Statements for details on related party transactions.

PART IV – CORPORATE GOVERNANCE

The Company's Manual on Corporate Governance, which was adopted on June 21, 2007, and revised on April 14, 2010, details the standards by which it conducts sound corporate governance that is coherent and consistent with relevant laws and regulatory rules, and constantly strives to create value for its stockholders.

Compliance with the Manual's standards is monitored by the Company's Compliance Officer. Ultimate responsibility rests with the Board of Directors, which also maintains three (3) standing committees apart from the Executive Committee, each charged with oversight into specific areas of the business activities:

Executive Committee

The Executive Committee of the Board is responsible for developing and monitoring the Company's risk management policies. This Committee, which meets regularly, reviews the detailed financial and operating performance of the company every month and reviews progress against the relevant Annual Operating Plan and Operating Targets, monitor the Company's progress against key initiatives, pricing strategies and plans, sales and marketing plans, capital expenditure planning and key decisions on organization structure and people.

Based on the Manual, the Executive Committee shall be composed of at least five members, namely, the President-Chief Executive Officer, the Chief Operating Officer/s, the Chief Financial Officer, and such other directors.

The incumbent Chairman and members of the Executive Committee are as follows: Messrs. Micky Yong (Chairman), Partha Chakrabarti (Chief Operating Officer for Finance, Treasury, Human Resources, Legal, Manufacturing and Logistics), Felix S. Yu (Chief Operating Officer for Sales), Akash Shah (CFO), Sunil D'Souza, James Eng Jr., Tsang Cho Tai (Allan Tsang) and Qasim Khan.

Audit Committee

The Audit Committee assists the Board in its fiduciary responsibilities, as it provides an independent and objective assurance to management and shareholders that business operations are carried according to approved standards and objectives, and the Company's resources are preserved and productive. This committee meets at least four times a year.

Based on the Manual, the Audit Committee must be comprised of at least three directors, preferably with accounting and financial background. Two of the members must be independent directors, including the Chairman of the committee. The Audit Committee reports to the Board and is required to meet at least once every three months.

The incumbent Chairman and members of the Audit Committee are as follows: Messrs. Oscar S. Reyes (Chairman), John L. Sigalos, Tsang Cho Tai (Allan Tsang), and Rafael M. Alunan III.

Compensation and Remuneration Committee

The Compensation and Remuneration Committee, based on objective and impartial studies, utilizes a formal and transparent framework in determining the remuneration of the members of the Board and the Company's key executives. This committee's decisions on compensation issues are consistent with the requirements of objectivity, fairness and relevance. This committee meets at least once a year.

Based on the Manual, the Compensation and Remuneration Committee must be comprised of at least three members, including one independent director. The Compensation and Remuneration Committee reports to the Board and is required to meet at least once each year.

The incumbent Chairman and members of the Compensation and Remuneration Committee are as follows: Messrs. James Eng Jr. (Chairman), Micky Yong, John L. Sigalos and Rafael M. Alunan III.

Nomination Committee

The Nomination Committee ensures that the PCPPI Board of Directors is made up of visionary, ethical and competent business leaders who can contribute to the vast range of ideas and reach decisions that will protect and grow the business. This committee also makes sure that the designated Board members address the higher purposes of the company as a responsible enterprise which has a positive value on the communities where it operates. The Committee meets at least once a year.

Based on the Manual, the Nomination Committee must be comprised at least three members, including one independent director. The Nomination Committee reports to the Board and is required to meet at least once each year.

The incumbent Chairman and members of the Nomination Committee are as follows: Messrs. Micky Yong (Chairman), James Eng Jr., John L. Sigalos and Rafael M. Alunan III.

For purposes of evaluating compliance with the Manual, the Corporation has adopted the self-rating form prescribed by the Securities and Exchange Commission ("SEC"). The Corporation has complied with its Manual through the election of two (2) independent directors to the Corporation's Board; the constitution of the Audit, Compensation and Remuneration, and Nomination Committees pursuant to its By-laws and the election of the Chairman and members of such committees, which include the independent directors; the conduct of regular meetings of the Board of Directors and the various committees of the Board above stated; adherence to the written Code of Conduct prepared by the Corporation's Human Resources Department; and adherence to applicable accounting standards and disclosure requirements.

The Corporation adheres to a business plan, budget and marketing plan. Management prepares and submits to the Executive Committee of the Board and to the Board, on a regular basis, financial and operational reports which enable the Board and Management to assess the effectiveness and efficiency of the Corporation.

While the Corporation has fulfilled its corporate governance obligations and there has been no deviation from the Manual as of date, it continues to evaluate and review its Manual to ensure that best practices on corporate governance are being adopted.
