The Essence of Chakra Stones

The word "Chakra" means "wheel of energy" in Sanskrit – representing the natural flow of life force within our body. For thousands of years, the ancient traditions of yoga and Ayurveda have described seven main chakras, or energy centers, aligned along the spine. Each chakra governs specific emotions, organs, and aspects of consciousness.

Chakra Stones are carefully selected crystals and gemstones that correspond to each of these seven chakras. Each stone carries its own color, vibration, and healing frequency – believed to help realign, balance, and open the energy flow through the body and mind.

When placed on or near the chakra points during meditation, massage, or relaxation rituals, these stones help to release blockages and restore inner harmony. Their gentle energy encourages calmness, self-awareness, and emotional healing – allowing the body to return to its natural state of balance.
