INSERT

TIME 3 HOURS

READ THESE INSTRUCTIONS FIRST

This insert contains all the Figures and Tables referred to in the questions.

Table 1 and Fig. 1 for Question 1

Table 1
Headquarters location of the world's top 3 automobile producers

Rank	Company	Headquarters country	No. of passenger cars produced
1	Toyota	Japan	7,768,633
2	Volkswagen	Germany	6,110,115
3	General Motors (GM)	US	6,015,257

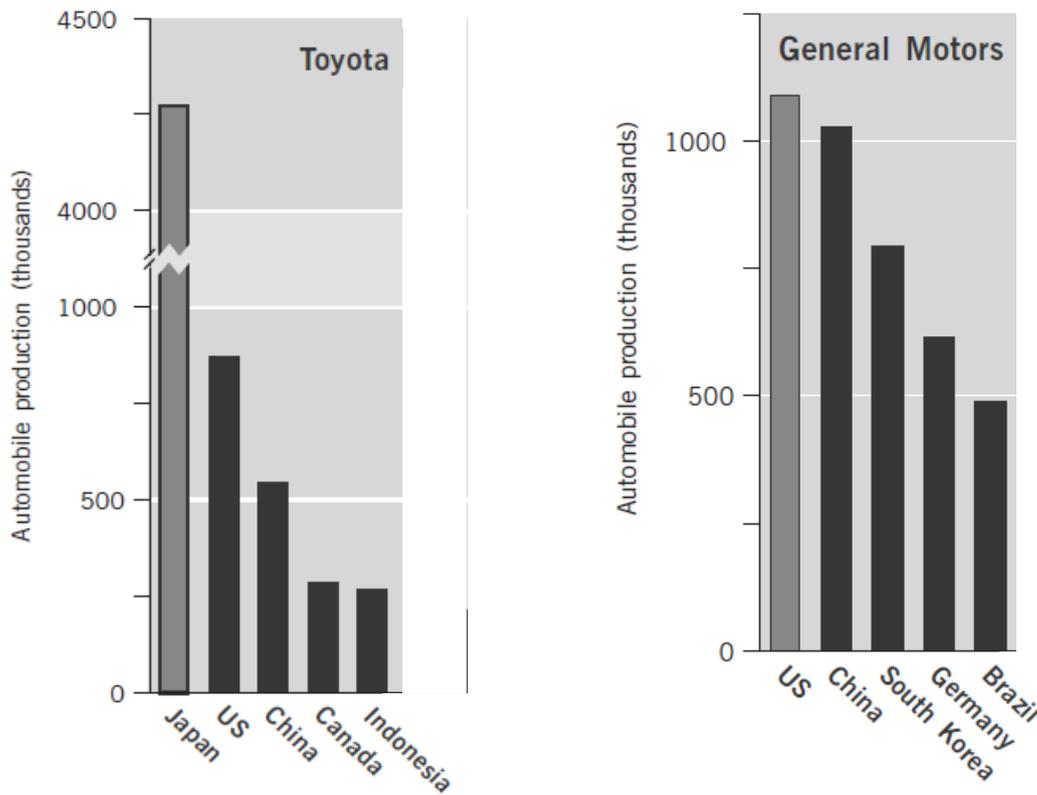

Fig. 1
Top 5 locations for the production of Toyota and General Motors automobiles in 2008

Fig. 2
Outgoing remittances from Malaysia (in green) in 2012, according to the World Bank

○ < \$1 billion ○ \$1-2 billion ○ \$2-3 billion ○ \$3-4 billion ○ \$4-5 billion ○ \$5-6 billion ○ > \$6 billion

Total outgoing remittances from Malaysia: \$7,252,000,000

According to the World Bank, "remittances" are funds or other assets sent to their home countries by migrants. Total remittances received by a country include remittances sent via formal channels, such as banks and other businesses that transfer money.

Table 2 for Question 2
Top 5 destination countries for outgoing remittances from Malaysia

Rank	Country	Estimated amount (in millions of \$)	Number of migrants
1	Indonesia	3,786	1,397,684
2	Philippines	1,247	277,444
3	China	772	125,584
4	India	547	106,880
5	Thailand	365	79,604

Fig. 3A for Question 3

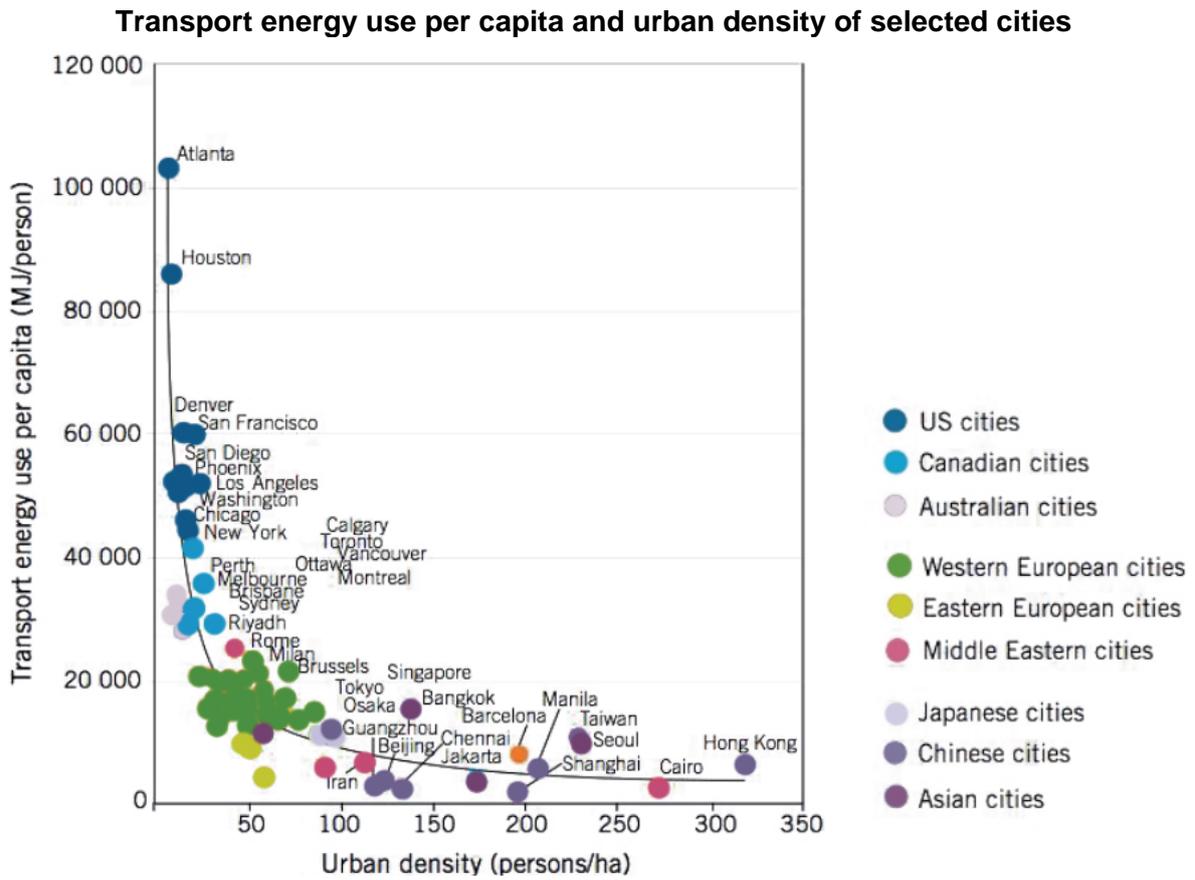

Fig. 3B for Question 3

Urban form and transportation mode share

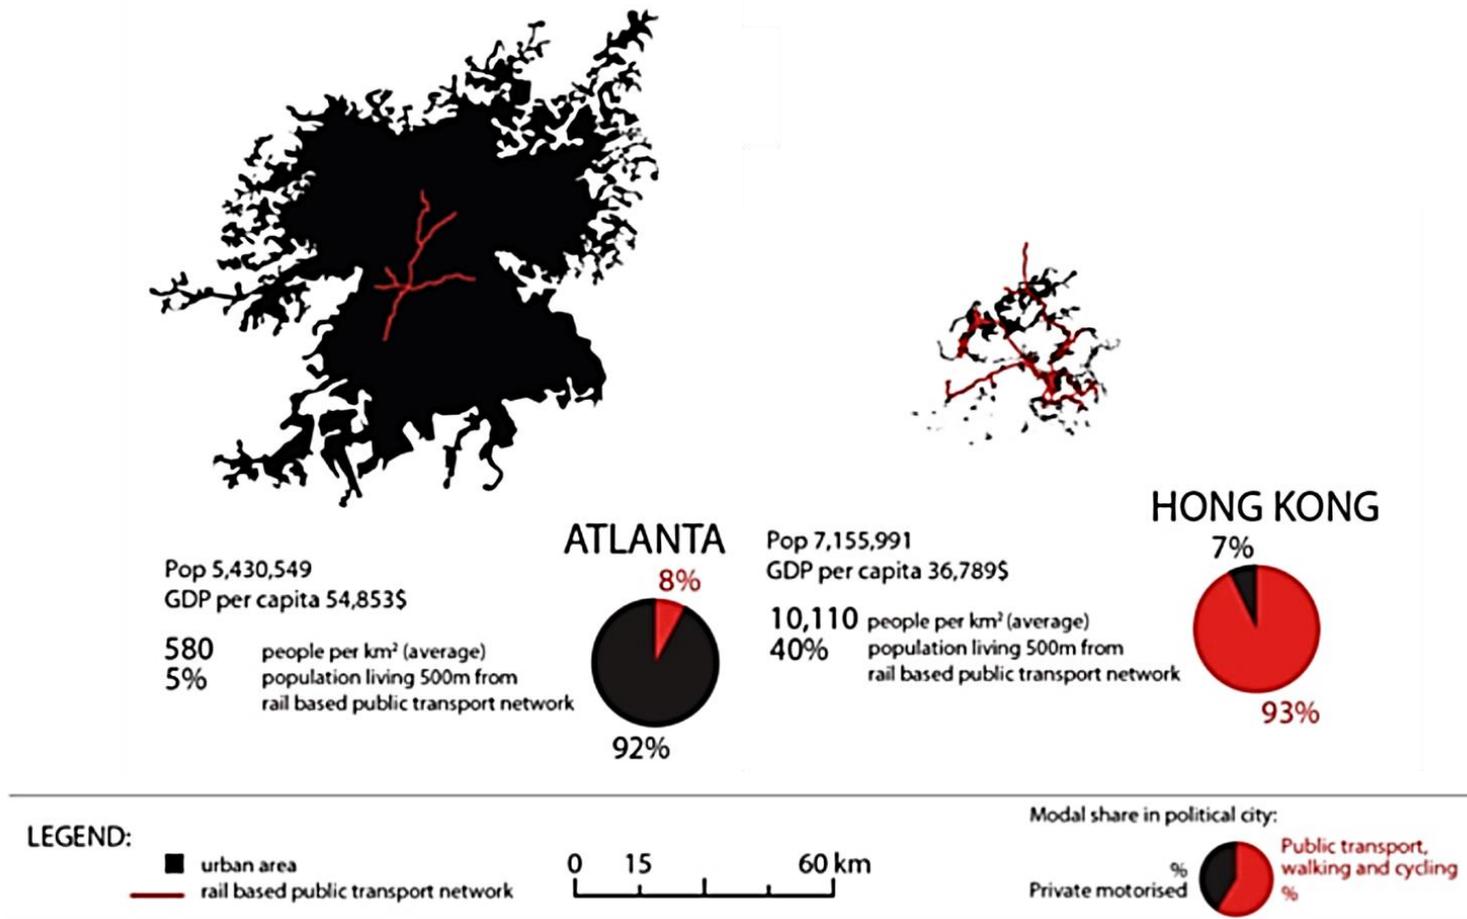

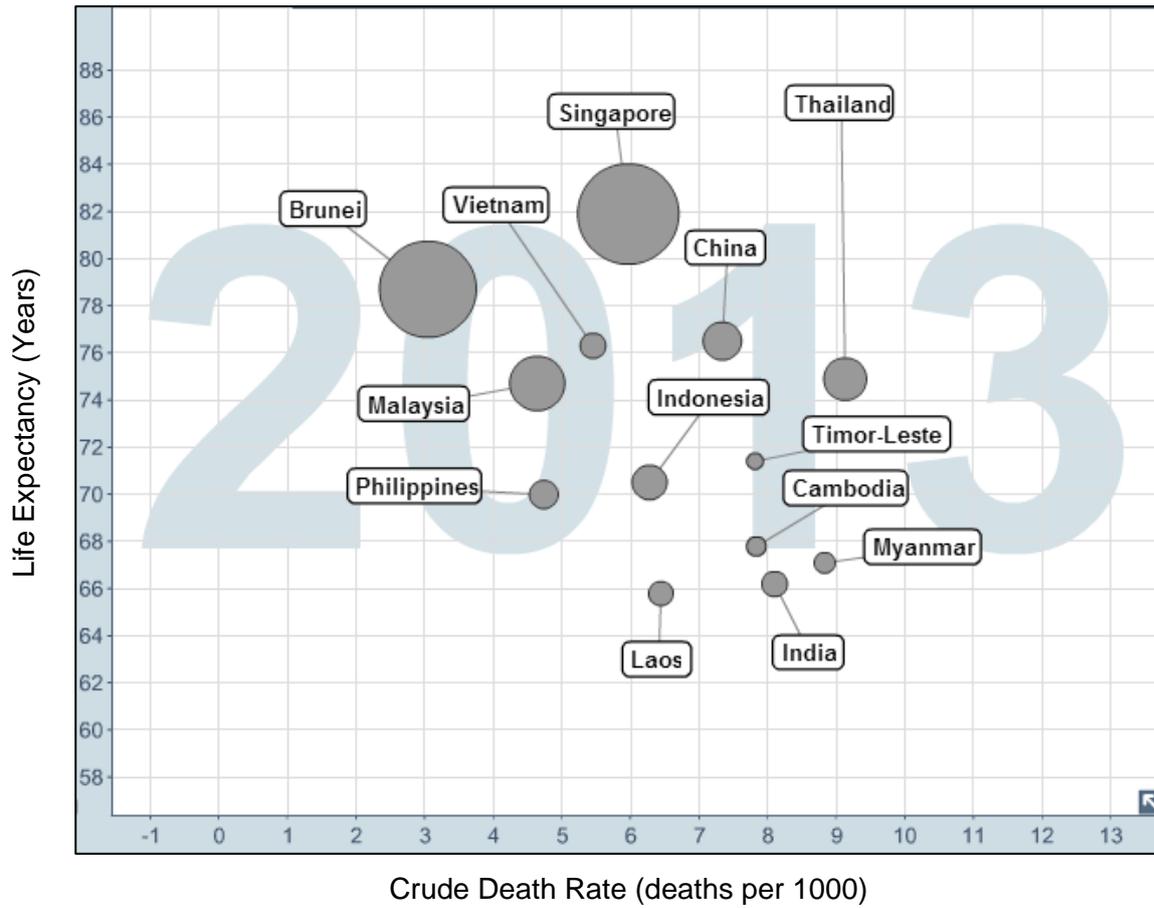

Fig. 4 for Question 4
2013 life expectancy, crude death rate and income*
for ASEAN countries, China and India

GDP per capita,
 adjusted for
 purchasing power parity

- \$70,000
- \$20,000
- \$2,000

Society To Collapse By 2040 Due To Catastrophic Food Shortages, Environmental Disaster

New scientific models supported by the British government's Foreign Office show that if we don't change course, in less than three decades industrial civilization will essentially collapse due to catastrophic food shortages, triggered by a combination of climate change, water scarcity, energy crisis, and political instability that are fueled by war.
